

## Mrs. Anna R. Dall Wed To John Boettiger In Secret New York Rites

Daughter of President and Mrs. Roosevelt and Husband Leave City After Ceremony for Unannounced Destination.

### WAS PREDICTED

Washington Rumors Flourished for Months When Two Were Seen Together Often.

New York, Jan. 18 (AP).—The marriage of John Boettiger, former Washington correspondent of the Chicago Tribune, and Mrs. Anna Roosevelt Dall was performed in great secrecy at the East 65th street residence of President and Mrs. Roosevelt today.

Immediately following the ceremony, performed in the presence of the family, the couple left for an unannounced destination.

"No one knows where they went," questioners were informed cheerfully at the Roosevelt residence. For information, they were referred to the White House.

The marriage of Boettiger and Mrs. Dall culminated one of Washington's most eagerly watched romances.

Boettiger recently left the Tribune for the Life Hays organization, the Motion Picture Producers Association, and has been employed in their New York office. Shortly before Christmas, Mrs. Dall, according to published reports here, accompanied him on a round of entertainment here upon the occasion of a visit from Washington.

The ceremony was performed by Judge J. Frederic Kernochan, a friend of the Roosevelt family, and immediately after the rites they left by automobile on a wedding trip. Boettiger has been residing in New York city and they will make their home there.

He recently left the Chicago Tribune and is now employed with the Motion Picture Producers of America.

For months before the marriage, the capital had buzzed with rumors of their romance.

Seen Together Often.

The two were seen riding together out at Fort Myer, where the Roosevelt's keep their horses, in the early morning, and dancing together at the fashionable Washington hotels at night.

They became friends during the Roosevelt campaign transcontinental tour when Mrs. Dall was with her father and Boettiger covered the trip for the Tribune. Later he was assigned to the Washington staff of the newspaper.

In a ten-minute court proceeding, Mrs. Dall was divorced from her first husband—Curtis B. Dall, a broker—last July 30 at Minden, Nevada. She claimed "extreme cruelty."

They had been married eight years.

The divorce was obtained in the same small brick court house where Mrs. Dall's brother, Elliott Roosevelt, was divorced about a year earlier.

Only Mrs. Dall, Mrs. William S. Dana, court officials and attaches were present when the President's daughter gave her brief testimony behind closed doors in support of her charges.

Custody of the Dall children, "Sis" and "Buz," who stay at the White House, was provided for in a written agreement approved by the court, but its terms were not made public at the time.

Mrs. Dall with her children has lived in the White House practically the entire time of the Roosevelt residence.

Rumors of her estrangement from Dall circulated before the Roosevelt campaign even started.

They had been married in 1926, in a fashionable church ceremony at Hyde Park, N. Y. Dr. R. Edgerton Peabody, headmaster of Groton School, President Roosevelt's school, officiated.

They went abroad on their wedding trip. They had two children, Anna Eleanor, always called Sis, because she carried the same name at both her mother and grandmother, and Curtis Roosevelt Dall, nicknamed Buz. Sis is now 5 years of age, Buz 4.

The Dalls separated in 1933. Dall remaining in New York city to conduct his brokerage business and Mrs. Dall going to the White House to live.

Treasury Receipts.

Washington, Jan. 18 (AP).—The position of the Treasury on January 18 was: Receipts, \$1,432,590,571; expenditures, \$1,091,761,098,222; balance, \$2,422,149,914,232. Customs receipts for the month, \$14,140,222.19. Receipts for the fiscal year (since July 1), \$1,344,533,204; expenditures, \$3,324,501,366,94 (including \$1,377,633,555.75 of emergency expenditures); excess of expenditures, \$1,979,968,162.68. Gold assets, \$8,272,742,733.85.

Monetary Reports.

General, Jan. 18 (AP).—Monetary reports to the League of Nations today that an investigation of Yugoslav charges was being made in the commission of King Alexander at Belgrade, revealed that there were charges, but said also was improving a more drastic supervision of foreign exchange and political situation. Several police officers were discharged or given short prison sentences.

### Freighter's Captain Drowns After Guiding Crew of 28 to Safety

Halifax, N. S., Jan. 18 (AP).—Capt. Duncan Milne, last man left aboard the stranded British freighter Kanter as she broke up on Black Rock Point, was drowned today as he climbed into the breeches buoy that had carried 28 of his crew to safety.

Captain Milne remained aboard with his chief engineer, J. Dove, long after fishermen of Portuguese Cove had pulled 27 of the crew to land through the raging breakers of Black Rock Point.

The vessel had grounded shortly after 10 p. m. last night. The 27 men were saved by the time dawn broke over the angry waters.

Watchers on shore waited in vain by the breeches buoy line for the captain and his chief engineer to leave the ship.

Finally, after daylight came, they could see the steamer listed on the reef, jarred by every snash of the breakers. She split in half at last, and the waves carried the stern away.

But the line was still attached to her foremast. Chief Engineer Dove got ashore while Captain Milne, true to the traditions of the sea, remained to the last.

But he waited a little too long. Watchers on the shore, peering through a raging snowstorm, saw Captain Milne climb to the mooring of the lifeline and step out toward the breeches buoy.

Somehow, he missed his footing. He plunged forward into the sea and disappeared, swept out of sight in an instant.

The 3,390-ton freighter was stranded about 100 yards from land. She ran aground only a few miles from Halifax, but it was hours before tugboats sent in response to an S O S could locate the ship.

### Robbers Hold Up Middletown Plant

Middletown, N. Y., Jan. 18 (AP).—Three robbers held up employees of the Atlas Fur Dressing and Dyeing Company at pistol point today and escaped with the \$3,370 payroll.

The robbers asked the manager, W. S. Newman, for jobs, then left the plant. Five minutes later they returned, jumped over a counter and held up Newman and two 14-year-old boys. One was the son of the president of the company.

Two went to a room where the bookkeeper, Mrs. Ruth Osborne, was counting money for pay envelopes. She was held up and robbed.

Two other employees were held up when they entered the office.

The men stole an employee's automobile and fled. Later they abandoned it in a Middletown street. A witness said they walked around a corner and disappeared.

The men were young, well dressed, wore dark coats and grey hats, and were dark complexioned. All appeared young.

Howard Fenning, 14, son of the president of the company, was shot in a chum, Sanford Menter, 14, through the plant when the robbers entered.

May Go To Trial Soon.

Paris, Jan. 18 (AP).—Marjorie Tilly Switz, the East Orange, N. J., woman who is among a score of oddity assorted spy suspects charged with working together to aid Soviet Russia, is about to face trial at last. It appears with her husband and their alleged accomplices. Since her arrest in mid-December, 1933, Mrs. Switz has passed the months in the Petite Roquette, that 105-year-old jail from which Mata Hari, famous spy, was led to a firing squad October 15, 1931.

Snow Plows Worked All Night in City

Starting at midnight the city snowplows worked all night and this morning practically every street in the city had been opened. It was said that owing to heavy traffic on the main streets during the day that it was found advisable to commence work at a time when traffic was at its lowest ebb. The street department also placed a large force of men at work this morning and a number of trucks to remove the piles of snow that had been heaped up by the snow plows as they passed through the principal streets.

Federal Agents Busy.

Chicago, Jan. 18 (AP).—Federal agents worked all day today to put a finish to the Barker-Karpis kidnap case, with the arrest of Alvin Karpis, new No. 1 public enemy, and remaining "knap" of the mob believed to be imminent. The belief that the government investigators were closing in on Karpis was based on a series of developments, including the disclosure of a federal agent at Ocala, Florida, that heavy reinforcements of agents had been sent into that state for a concentration near Miami.

## Governor Enacts Into Law Six Bills Approved By the State Legislature

Action of Governor Is in Line with Policy of Democrats, in Control of Both Houses of Legislature, to Move Swiftly.

### SEVERAL CHANGES

Says Democrats Will Move Early Next Week To Scrap the Present Assembly Rules.

Albany, N. Y., Jan. 18 (AP).—Governor Lehman today enacted into law six bills approved by the state legislature the first two weeks of the 1935 session, including five of his program measures.

The program bills provide for: Extension of the mortgage moratorium to July 1, 1936.

Extension of the mortgage deficiency judgments to July 1, 1936.

Creation of bi-partisan election boards in all counties.

Filing of campaign statements before and after elections.

Additional returns of canvass by election inspectors within 24 hours after the closing of the polls.

The sixth measure authorizes the City of Poughkeepsie to issue bonds to pay outstanding warrants originally issued for public improvements.

The action of the governor in approving the bills soon after their passage by the legislature is in line with the policy of the Democrats, in control of both houses for the first time in 22 years, to move swiftly on program proposals.

Plan Big Changes.

Speaker Irwin Steingut today announced that Democratic members of the Assembly would move early next week to "scrap the present Assembly rules which have been unchanged in over a decade and adopt a complete new set of rules."

At the same time he announced several other changes in procedure to speed up the work of the lower house.

One of these provides for immediate advancement and passage of non-controversial legislation by unanimous consent or under a suspension of the rules as soon as the measures are favorably reported by committees.

Another move, being planned by the Democrats is to amend state laws to relieve the legislature of considering hundreds of private and local bills.

"While no important substantive changes have been made in the procedure," Speaker Steingut said, "it is anticipated that the simplification of the rules will accelerate the passage of legislation and the early adjournment of the legislature."

"The recommended changes are in line with the declared intention of the Democratic leaders to give the people of the state one of the shortest and most productive sessions in the history of the state."

Notice was served today that the Democrats will change the Assembly rules early next week.

Five-Minute Session.

The New York Legislature held only a five-minute perfunctory session today at which the only business before the two houses was in introduction of several bills of minor nature. It will re-convene Monday night at 8:30.

Two of the Governor's labor bills are on the order of final passage in the Assembly and are expected to be approved Monday night. These are the McNaboe bill, outlawing the "Yellow Dog" contract, and the Wojtkowiak bill, writing into the law a statement that labor is not a commodity.

Six other labor bills were given public hearings during the week and are expected to be reported favorably early next week.

The Child Labor Amendment and the State Insurance Fund proposals will be discussed at public hearings January 23.

One Lost in Shipwreck.

Chesoo, China, Jan. 18 (AP).—Only one of 151 persons aboard the grounded Japanese steamer Haratake Maru was lost, thanks to a daring rescue in heavy seas by the Japanese destroyer Hoki off the Chinese coast. The ship was wrecked Wednesday. The survivors arrived here today.

Just A Year Ago Today...

Sub-zero weather covers entire state after a week of normal temperatures. Temperatures from 10 to 25 below zero registered in different sections.

Charles Mendicino becomes the new president of Cuba. He is the fifth man in as many months to hold the post.

Temperatures: Lowest, 15, highest, 15.

## Mrs. Hauptmann Yells 'Lie!', Causes Momentary Bedlam

### Local Dealers Are Buying Raw Milk From Distant Points

A statement recently made at a meeting of the Board of Health to the effect that there was a plentiful supply of certified milk available, has caused several of the local milk distributors deep concern. Since the new milk regulations went into effect the only raw milk which may be sold in the city of Kingston is certified milk which sells for 18 cents per quart and at the present time there is but one producer in Ulster county who is able to produce certified milk. All other producers are pasteurizing.

In order to supply customers with raw milk several of the dealers are now buying milk from distant points. Some of the certified raw milk comes from the Arden Farms in Harriman, others from Westchester county and some from the Ulsterdort Farms in Highland, the only dairy in the county to produce certified milk.

The supply in Ulster county is very limited and one large distributor of milk today stated that he had put in an order for several cases of certified milk from the Ulsterdort Farms but had been unable to have his order filled because of the limited supply.

Many people in town have found pasteurized milk unpalatable and have requested their milkman to secure for them raw milk even at the advanced price of 18 cents per quart. This is particularly true of families who have growing children who refuse to drink the pasteurized milk because of the peculiar taste.

Inability to secure a local supply of certified raw milk has prevented dealers from supplying this demand in many instances.

A second dealer states that the demand for raw milk on his routes has been growing and it has become necessary to bring in milk from distant points to meet the demand. The Orange county supply which is being brought in is from Holstein cows and naturally does not have the butter fat content of Guernseys or other breeds giving a richer grade of milk and several customers have complained of the low cream content of this certified milk which has been brought in.

One of the largest producers and distributors of milk in Kingston this morning stated that it was not as easy a problem to get certified milk for sale here as the statement made at the Board of Health meeting indicated. Some of those who produce certified milk do not care to sell their product where the indication is that the market will be but a temporary one.

Application has been made by the Winston Farms at Saugerties for a permit to produce certified milk but the permit has not yet been granted. When this is granted there will be a considerably large supply of raw milk produced locally which will relieve the situation to some extent.

Bonus Vote Threat.

Washington, Jan. 18 (AP).—Backers of the Fatman bill to pay the \$2,100,000 soldiers' bonus with new treasury notes surged forward with a threat to force a vote in the House if administration leaders seek delay. In an informal caucus they threw into sharp relief a division of opinion among bonus advocates as to just what bill should be pressed.

National Guard Convention.

Albany, N. Y., Jan. 18 (AP).—Military men from all parts of the state gathered today for the opening of the two-day convention of the National Guard Association of the state of New York. The high spots on today's program are a reception to Brig. General Walter G. Robinson, who resigned as president of the association when named to succeed Adjutant General Franklin Ward, and a dinner tonight with Governor Herbert H. Lehman as guest of honor.

National Thrift Week.

New York, Jan. 18 (AP).—This is national thrift week and the national thrift week committee is anxiously close to going broke. Only \$50 was contributed for a thrift campaign this year. It was decided by J. Robert Stout, executive chairman, after a meeting of the executive committee last night at which the advisability of continuing the project was debated. The committee, Stout said, was unable to decide.

Industrial Homework.

Albany, N. Y., Jan. 18 (AP).—Industrial homework, long a trouble some problem for labor and industry, today appeared poised for state regulation. A bill designed to curb and regulate the activities of more than 200,000 persons now engaged in industrial homework in the state will be reported favorably to the legislature next week. It was learned yesterday at the close of a public hearing. No one opposed the measure.

### Federal Operatives Capture Mais Gang In Gotham Roundup

New York, Jan. 18 (AP).—Robert Mais, 29, and Walter Legenza, 41, who shot their way out of a Richmond, Va., prison, and three other members of the "Tri-state" gang, were arrested in New York, the department of justice announced today.

The other three, under arrest, Frank Fay, of the department of justice, said were Mary McKeever, 24; Martin Farrell, 28; and Edwin Gale, 23.

Mais was surprised in an apartment at 8 Manhattan avenue at 3:30 a. m., and was captured in bed. Federal operatives and Philadelphia and New York police had surrounded the apartment house, and entered the apartment door so unexpectedly that Mais had no time to reach for a .38 calibre automatic pistol that was at his side.

The first taken into custody were Farrell and Gale, seized in a midtown (Manhattan) hotel yesterday morning, Fay said.

Legenza next was located in a Manhattan hospital, where he was receiving treatment for a broken leg. His arrest took place last night, as did that of the McKeever woman, who was visiting the patient.

Fay, who is head of the intelligence division of the department of justice here, said "the arrest of these five eradicates, so far as we know, the Tri-state gang."

Mais and Legenza shot their way out of a Richmond, Va., prison September 29, 1934, killing one prison guard and seriously wounding two others. They were under sentence of death for the slaying of the custodian of a U. S. mail truck.

Fay said that after their escape they robbed government armories in Baltimore and Norristown, Pa., to obtain weapons.

The two also had been sought for questioning in connection with the kidnapping of William Weiss in Philadelphia last November. Ransom of \$5,000 was paid for his return, but Weiss is still missing.

Scarnici is Granted Four-Week Reprieve

Albany, N. Y., Jan. 18 (AP).—From the shadow of the electric chair at Sing Sing prison today had come word opening up new trails toward solution of the kidnapping of Lieut. John J. O'Connell of the famous O'Connell political family.

The word came from Leonard Scarnici, convicted killer of a detective in the city of Rensselaer, a four-week reprieve from the penalty the state had decreed.

"The district attorney of Albany county and the district attorney of Rensselaer county have joined in a request to me to grant a reprieve to Scarnici because of information contained in a statement made to them this afternoon at Sing Sing prison which involves other persons in the Rensselaer bank murder and other crimes," wrote Governor Herbert H. Lehman. "In accordance with their recommendation I am reprieving Scarnici for four weeks."

The statement came one hour before the convicted killer was to start his "last march."

Scarnici has been suspected of the kidnapping of young O'Connell in July, 1933. He was arrested as police officers, seeking the O'Connell kidnapers, swooped down on a Bronx apartment. Instead of the kidnapping, he was charged with the killing of James A. Stevens during a bank robbery at Rensselaer in 1933.

Several times Scarnici was reported "ready to talk" but no word came until yesterday when Lieut. Attorney John T. Delaney of Albany county conferred with him for three hours in the death house.

Only one man, Manner Scarnici, erstwhile Albany beer runner, has been completed in connection with the O'Connell case. As intermediary he arranged for the payment of the \$100,000 ransom which kept young O'Connell back to his family one month after the kidnapping. He was convicted as an accomplice in the crime and sent to Dannemora for a long term.

Replacing Old Mains With Larger Pipes

A work relief project that will add greatly to the efficiency of the water system of the city has been started today by the local emergency relief bureau. It is planned to remove all of the old 4-inch water mains in the city and replace them with new 6-inch mains. The materials will be furnished by the water department and the labor by the ERR.

Work was started today on Hudson and Hunter streets, and will be followed by similar work in West Chester street, East Chester street, Mary's avenue and Janderman avenue, as well as many other streets.

It is said that most of the old 4-inch water mains were laid in the 1800's.

When Justice Thomas W. Trenchard arrived, the prisoner displayed the first flash of interest, watching the aged jurist as he slowly walked to his chambers.

Edward J. Kelly, chief defense counsel, then came in. When Kelly came to the table Hauptmann leaned over and talked seriously to the defense chief.

Justice Trenchard took the bench at 10:02 a. m., and court convened. The jurist was immediately called by Hauptmann's wife, Anna, arrived at her seat near the defense table a few minutes before court convened. She talked animatedly to Hauptmann, smiling in cheerful fashion.

Col. Charles A. Lindbergh and Col. H. Gorman Schwartz arrived together during the opening of the trial.

Continued on Page 12

### Flemington Court Thrown Into Disorder for Second Time in as Many Days as Mrs. Hauptmann's Nerves Crack

### HAD INJURED LEG

Mrs. Achenbach Says Hauptmanns Returned From a "Trip" and Man's Leg Was Hurt.

By WILLIAM A. KINNEY

Flemington, N. J., Jan. 18.—The lie was cried by Mrs. Anna Hauptmann today, and the trial of Bruno Richard Hauptmann, her husband, for murder was a momentary bedlam for the second time in as many days.

"Mrs. Achenbach," she cried at her former employer on the witness stand, "you are lying!"

The witness, Mrs. Ella Achenbach, has just testified that two days after the kidnapping and murder of baby Charles A. Lindbergh, Jr., Mrs. Hauptmann told her she and her husband, who is on trial for the crime, had just returned from a trip.

Rebuked by Court.

Rebuked and chastened by the court, Mrs. Hauptmann then had to hear Mrs. Achenbach relate that Hauptmann had an injured leg. The state is trying to prove the Lindbergh baby was killed in a fall with Hauptmann from a breaking ladder at the Lindbergh nursery.

Colonel Charles A. Lindbergh, father of the slain baby, was unmoved by Mrs. Hauptmann's outcry. He sat quietly, though counsel for both sides and spectators leaped to their feet.

Hauptmann himself made no move.

Once Employed Mrs. Hauptmann.

Mrs. Achenbach, who once employed Mrs. Hauptmann as a waitress, said she saw Hauptmann two days after the kidnapping, which occurred on March 1, 1932.

"Anna Hauptmann came to my front porch," she testified, "and told me they just came home from the trip."

Mrs. Hauptmann rose from where she sat. Her usually pale face was livid. Her voice jerked all eyes in her direction.

"You are lying!"

"Mrs. Achenbach, you are lying!" Attorney General David T. Wilentz, angered, addressed himself to the court.

"If your honor, please, we object to these demonstrations, whether they are staged or otherwise," C. Lloyd Fisher, defense attorney, jerked himself forward.

"I ask that those remarks be stricken," he demanded.

"One moment!" commanded Justice Thomas W. Trenchard, placatingly, patiently. "Who said that?"

"Mrs. Hauptmann," reported Wilentz.

Parley Over Remark.

"This is the second time this thing has happened," complained Justice Trenchard. He referred to Hauptmann's own outbreak of yesterday, when he loudly accused witness Thomas H. Sisk of lying.

"What I resent," said Fisher, "and I don't think it was intended, is the general remark, 'whether they are staged or not.'"

"Oh, well," said the court. The atmosphere was still tense. The spectators had only begun to settle back in their seats.

Air of Expectancy.

## Compensation Cases Heard

The following cases under the workmen's compensation law were heard at the courthouse Thursday by Referee Frederick A. Hoyt:

Frank Holbert, St. Remy; Harp & Conway Construction Co. Adjudged for examination.

George Van Wart, Gardiner; Harp & Conway. Disallowed.

Louis Salvano, Kingston; Colonial Liquor Distributing Co. Adjudged. James Carney, Kingston; Harp & Conway. Disallowed.

George Schonger, Kerhonkson; Harp & Conway. Adjudged, examination one month with X-rays.

A. Stauble, Kingston; The Mohican Co. Adjudged, examination three months.

Earl Wright, Wawarsing; Ulster Co. Dept. Highways. Adjudged for examination.

Charles Graham, Arena; Delaware Co. Stone Co. Award \$6.67 and closed.

Theodore Crawford, Olive Bridge; Ulster Co. Dept. Highways. Disallowed.

Benjamin Burke, Saugerties, N. Y. S. Dept. Highways. Disallowed.

William Lortz, Olive Bridge; Ulster Co. Dept. Highways. Award \$27.14; closed.

Thomas Debrinsky, 53 Emerick street, Kingston; Schilling Furniture Co. Award \$1.50; closed.

Gus Gerlach, High Falls; Ulster Co. Dept. Highways. Adjudged.

Sidney Krom, Kingston, R. D. 2; Schilling Furniture Co. Award \$38.80 for 10 per cent left index finger.

Lewis E. Dyer, Napanoch; Ulster Co. Dept. Highways. Adjudged.

James O'Neil, Kingston; Ulster Co. Dept. Highways. Adjudged.

Lewis Barringer, Samonville; Ulster Co. Dept. Highways. Disallowed.

Benjamin Snyder, Woodstock; Ulster Co. Dept. Highways. Adjudged.

Ray Stone, Rhinebeck; Irving Staley. Adjudged to Poughkeepsie calendar.

George Freer, Kingston; F. B. Matthews & Co. Adjudged, examination three months with X-rays, disability to continue.

Floyd Miller, Kerhonkson; Ulster Co. Dept. Highways. Adjudged, examination three months.

George H. McEvoy, Bloomington; N. Y. S. Dept. Highways. Disallowed.

Edward Noonan, Kingston; Ulster Co. Dept. Highways. Disallowed.

John Hommel, Woodstock; Ulster Co. Dept. Highways. Adjudged.

John Rose, Kingston; Everett & Treadwell Co. Adjudged for examination with X-rays.

Philip Stahl, Rhinebeck, R. D. 1; Vincent Astor. Adjudged to early Poughkeepsie calendar, carrier to produce Dr. Cookingham.

Max Solomon, Kingston; Kingston Paints Co. Disallowed.

Philip Hutton, Kingston; G. W. Van Slyke & Horton. Adjudged for examination.

Adolph E. Munson, Port Ewen; James Millard & Son. Disallowed.

Fred Eckerlein, Saugerties; Colonial City Chevrolet. Award \$5; closed.

George Schleede, Ulster Park; Ulster Co. Dept. Highways. Adjudged (three months).

Theodore Geirlich, Modena; N. Y. S. Dept. Highways. Disallowed.

Henry Swarthout, Kingston; Universal Road Machinery Co. Adjudged two months pending settlement.

James Locke, Kingston; Universal Road Machinery Co. Adjudged, re-examination three months.

Patrick McDonough, Kingston; Ulster Co. Dept. Highways. Adjudged two months, re-examination with X-rays.

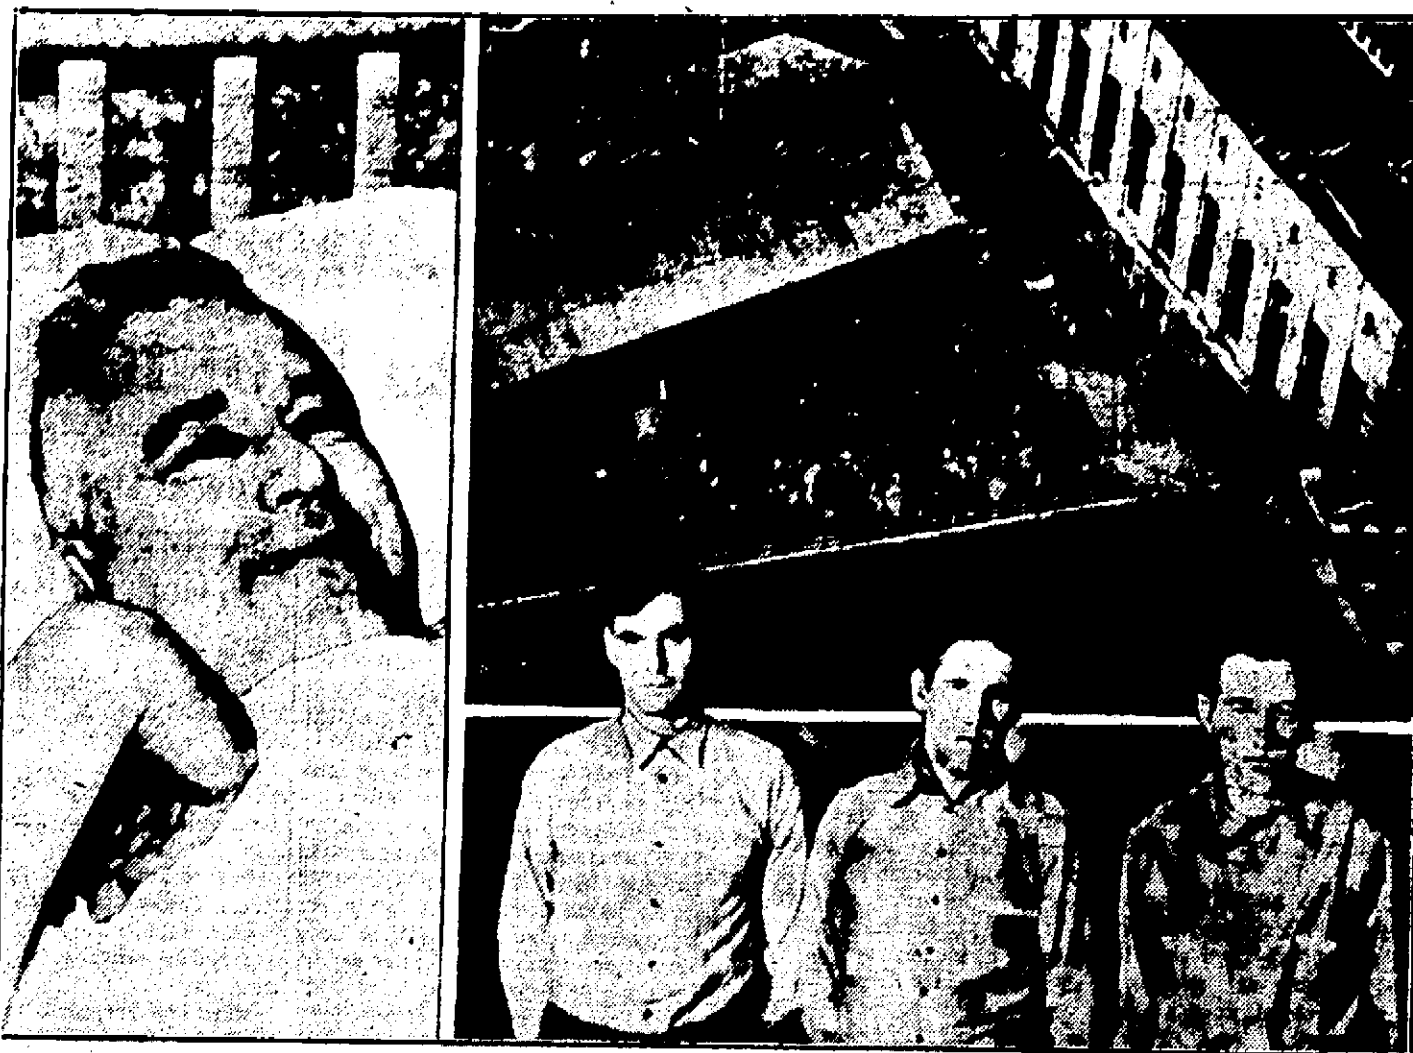

William Andrews, Kingston, R. D. 1; Newburgh Auction Dept. Adjudged for examination.

Rogelio Luperina, Dunraven; Delaware Co. Stone Co. Award \$133 for 25 per cent right big toe.

Mathias B. Cronk, Saugerties; V. Auto Delivery, Inc. Adjudged two months.

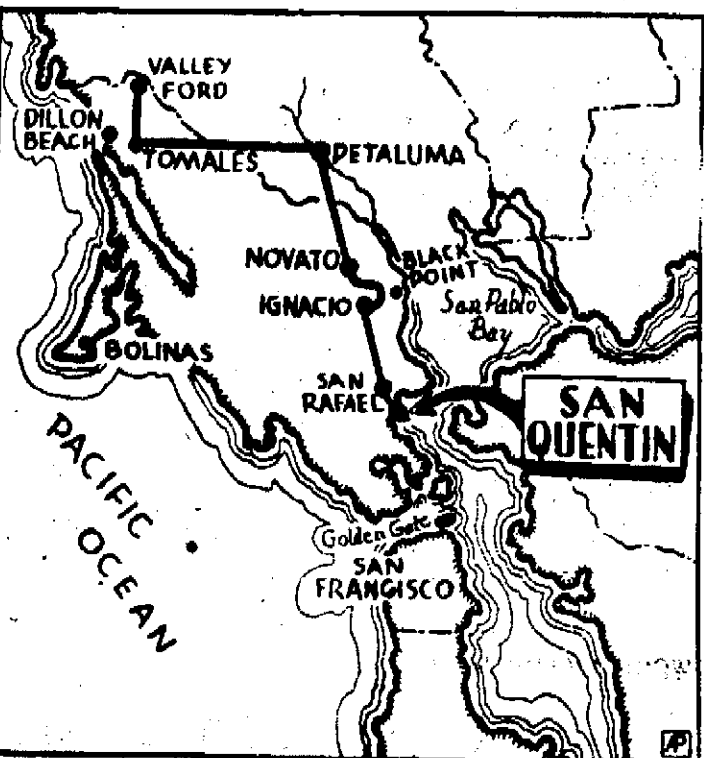

Henry Cragan, Kingston; County of Ulster. Closed for non-appearance.

## CONVICTS MAY PAY WITH LIVES FOR SAN QUENTIN PRISON BREAK

Death on the gallows may be the payment of Fred Lenders, Joe Kristy and Alexander Mackay (shown below, left to right) for two hours of freedom in San Quentin's sensational prison break. The three survived the gunfire of police posse. Above is an air view of the California prison shortly after the break, showing inmates being "herded" into the yard. Frank C. Sykes (left), chairman of the board of terms and parole, was one of the officials carried off as hostages. Wounded in the battle, he is shown in Petaluma hospital. (Associated Press Photos)

## WILD FLIGHT OF CONVICTS TRACED

The above map shows the course of the wild flight of four convicts who escaped from San Quentin prison, California, taking six officials and guards with them, before they were wounded and captured in a running gun battle at Valley Ford, 34 miles away. The convicts were forced to retrace their route when they headed for Black Point only to find draw bridges closing against them. They were believed heading for Dillon's Beach, a former run-runners' haven, when forced to surrender at Valley Ford. (Associated Press)

## What Congress Is Doing Today

(By The Associated Press.)

**Senate.**  
Resumes debate on world court. Finance committee considers nominations.

**House.**  
Debates District of Columbia appropriations bill. Labor committee considers old age pensions.

## 4-H Club News

Flatbush Pioneer Club.

The Flatbush Pioneer Club, has held a series of three informal dinners lately, each of which was cooked and served by two girls of the club. Two girls also acted as hostesses, and served very delicious afternoon tea while dinner was being prepared. They also entertained the more of these dinners very soon as they are part of the club's projects. The meals are served under the guidance of Miss Harrietta A. Thomas, local leader.

## HIGHLAND

Highland, Jan. 18.—Mr. and Mrs. Philip T. Schantz were dinner guests of Mr. and Mrs. Daniel Keyes in Poughkeepsie Wednesday evening.

The board of officers of the Methodist Sunday school met Tuesday evening with the superintendent, L. E. Osterhout, when reports of contributions and expenses connected with the Christmas season were given.

Mrs. James Callahan presided over her first meeting as president of Ida McKinley Council, D. of A. Wednesday evening. There was a good attendance and Mrs. Louise Sheeley was chairman of the refreshments, assisted by Mrs. Cora Thompson.

Mrs. Rose Seaman, Mrs. Myron Terpening, Mrs. Fred Snider, Misses Dorothy Seaman and Helen Thompson.

A group of ladies met at the home of Mrs. Edward Griffin Wednesday afternoon and organized for a study group of the book, "Suzuki Looks at Japan." There were six ladies present.

Mrs. Livingston Rhodes will be the hostess to the Evening Reading Circle Monday evening, with Mrs. Roscoe Wood assisting. The members are asked to bring their scissors to cut tags for tag day, January 26, for the benefit of the milk fund.

Miss Florence Bacon of Vassar college presided over the opening meeting in the Parent-Education group Wednesday evening at the high school. There were 20 present and the question of what subjects were preferred was discussed. The next meeting, January 30, will concern activities in the home.

The annual meeting of the Highland Savings and Loan Association is to be held Monday afternoon between the hours of 4 and 9 p. m. for the purpose of electing directors for the ensuing year. Philip T. Schantz is secretary.

Mr. and Mrs. J. William Feister spent Wednesday evening in town.

Miss Eliza Raymond was a guest of Mr. and Mrs. Edward Quimby in Newburgh Wednesday.

In the party were Mrs. Albert Buckbee of Warwick, Miss Lula Clarke of Milton

and Mrs. Wilbur Haviland of Marlborough.

Mrs. Joseph Freston is confined to her home by an attack of grip. Mr. and Mrs. Hubert Elling are recovering from colds and grip, as are Mr. and Mrs. George E. Dean.

The schedule for regent's examinations at the high school are: Monday, elementary geography, history B, American history; Monday afternoon, arithmetic, French, two years, economics, typewriting 1; Tuesday morning, elementary English, English, English 3 years, business English, commercial English; Tuesday afternoon, Latin 2 years (new type) Latin 2 years (old type); Latin 3 years, shorthand; Wednesday morning, elementary U. S. History with civics; French 3 years, plane geometry; Wednesday afternoon, spelling, silent reading, History A, chemistry, commercial law; Thursday morning, intermediate algebra, bookkeeping 2, plane trigonometry; Thursday afternoon, physics, physical geography; Friday morning, solid geometry; comprehensive music, 3 years.

Mr. and Mrs. John R. Wood, Miss Susan Mackay and Mrs. Rice leave Saturday to drive through to their home in St. Petersburg, Fla. to remain until spring.

## UNITED STATES SEVENTH IN 1934 SHIPBUILDING

Glasgow, (A).—The United States ranked no better than seventh in construction of shipping tonnage during the past year, according to figures compiled by the Glasgow Herald.

Only 83 ships, totaling 52,191 tons, were turned out of America's shipyards; whereas England led the world with 287 new vessels and 579,678 tons.

Extraordinary activity in the construction of small craft gave Japan second place with 220 vessels aggregating 217,466 tons. Germany stood third, followed by Denmark, Italy and Sweden.

**Phoenicia Fish and Game.**

The annual meeting of the Phoenicia Fish and Game Association will be held at Firemen's Hall, Phoenicia, Saturday evening, January 26, at 8:30 o'clock. All members are requested to be present as there will be important business to transact.

## Four More Criminal Cases Are Disposed Of in County Court

Disposition of four additional criminal cases in county court Thursday afternoon brought the total number of cases thus far disposed of without trial up to 11 for the term which was begun last Monday.

John Mancuso, 35, of Gill street, who was indicted for the murder of Anthony Damino in this city a few months ago was represented in court by Chris J. Flanagan. Mr. Flanagan said that after several weeks of investigation he had advised Mancuso to plead guilty to manslaughter, first degree. This plea was acceptable to Assistant District Attorney Haver who appeared for the prosecution. Mancuso claims the shooting back of North street was the result of an attempt by Damino to break up his home. In imposing sentence Judge Traver said that he believed the defendant had already been shown the limit of consideration in being permitted to plead guilty to a manslaughter charge and consequently he was going to impose the heaviest sentence which the law allowed in a manslaughter case. He sentenced Mancuso to a term of from 10 to 20 years in Clinton State Prison at Dannemora.

Burton Courtwright, 27, charged with the taking of an automobile recently was sentenced to 10 months in the county jail. N. J. Fowler appeared for Courtwright.

Louis Sampson, 17, who was involved in the same auto stealing case, was represented by Chris J. Flanagan and a plea of guilty to petit larceny was entered and accepted. Judge Traver stated that he understood from the authorities that Sampson's part was a small one in the act and he imposed a six months' jail sentence and suspended execution of that sentence during good behavior of Sampson, who was placed on parole.

James J. Kelly of Wallkill, represented by Francis T. Murray, changed a former plea of not guilty to burglary and unlawful entry to guilty of unlawful entry and he was sentenced to five months in the county jail.

The case of Sydney B. Myers was called but Myers was not present and court recessed until 2 o'clock Monday afternoon. At that time the Orlando Costello case will come up.

## PORT EWEN

Port Ewen, Jan. 18.—The weekly meeting of Hope Lodge No. 65, K. of P., will be held this evening.

The consistory of the Reformed Church will hold a card party in the church house Tuesday evening, January 22, to which the public is cordially invited. Refreshments will be served.

The regular meeting of the Boy Scouts will be held in the Reformed Church house at 7 o'clock this evening.

Sunday morning, January 20, the

Rev. J. Thoburn Legg will preach a sermon taking the place of the material he had intended for his concluding talk on "Miracles" in the series given during the recent church nights.

## Interesting Police Cases in Kingston

The First of a Series of Reviews of Interesting Police Cases Compiled From Police and Other Records Starts Tomorrow—The Tale of the Forger Who Turned Dynamite.

Realizing that the general public is interested in the activities of the Kingston police department, a member of the staff of The Freeman was assigned to interview Chief of Police J. Allan Wood, who last year rounded out a quarter of a century as head of the police department, and questioned him regarding what he considered the most interesting police cases that had come up in Kingston during the years he has served as police chief. As a result of these interviews the first of a series of interesting cases will appear in The Freeman tomorrow. The series will be found under the general heading of "From the Police Chief's Notebook" and the first case set down is entitled "The Forger Who Turned Dynamite."

## FEDERAL AGENTS BREAK UP ANOTHER 'GANG'

Following on the heels of their staying at Ottumwa, Ill., of Fred Barker and his mother, Kate, in a furious gun battle after they had surrounded the gangsters' bank hideout (shown above), federal agents announced they had broken up the gang headed by kidnapping Edward G. Bremer, St. Paul banker and brewer. They announced the other gangster member of the Barker family, Arthur "Doc" (left, above), had been under arrest in Chicago for a week, and the next was being pressed for Alvin Karpis (left, below), remaining member of the gang. (Associated Press Photos)

# POLITICS at Random

**PROBABLY** there never will be complete agreement as to the full significance of the supreme court's "hot oil" decision, but no one disputes that two practical results already are becoming apparent:

The language of the court has given new hope and new enthusiasm to those who contend that the basic concepts of the "new deal" are unconstitutional, unworkable, and futile; and—

Delivery of the opinion just at this time forecasts far greater care and deliberation in revamping the national industrial recovery act than were expended in its original enactment.

There are considerations of fact and not of opinion. Whether there is ground for the new courage infused into the anti-"new dealers" is beside the point. Nor is it necessary to establish whether a more cautious administration course actually is compelled by the court's action.

The hard practicality is that the new courage has been infused on the one side, and the new caution on the other, and both of these facts already are having their effect on capital bill and elsewhere.

## A Special Case

IT SHOULD be understood that in holding certain features of the oil code unconstitutional, the supreme court was dealing with a rather narrow field of litigation.

Oil was considered as much a special case when the recovery act was drawn that a special section was devoted to it: This section went somewhat farther than the general sections authorizing code-making in general. The court felt it went too far. The question now is whether, in later decisions, it will have the same feeling about the other and more general clauses of the law.

The renewed activity and enthusiasm of the anti-"new dealers" is based on implications they read into the court's words; implications denied by the "new dealers."

Almost immediately the effect has been seen in congress. The republican minority stiffened its lines overnight. It began an organized opposition to the "jump sum" plan for public works. It began to make preparations to examine more carefully the other proposals expected soon from the White House.

Whatever the justification for its hopes, the opposition to Mr. Roosevelt did take new hope and that always means new effort and new problems for the administration.

## Must Be Specific

THAT alone would mean, in turn, a greater deliberation on the part of the administration—a greater care in its redrafting of the recovery act, which is to expire next June.

There is, however, this further element: The court put great emphasis on the point that when congress delegates authority to the President, that delegation must be specific, and must have limitations.

Much of the "new deal" legislation was rushed through congress—was even described at the time by administration adherents as hastily drawn and designed to meet an emergency. Much of it delegated power in the most sweeping terms.

Since the court spoke there is no disposition among administration lawyers to continue that practice. They may, in the end, ask congress to authorize the President to continue to do everything he has been doing, and more; but they will see to it that the grants are more specific—that they say more exactly just what the executive can do and cannot do.

To that degree, then, and in those two directions, the court has made itself a real factor in the practical conduct of the new order at Washington. Many more decisions still are to come.

## Home for the Aged Annual Meeting

On Thursday afternoon the annual meeting with election of officers of the Board of Managers of the Home for the Aged was held at the home on Washington avenue, the president, Mrs. Grover Lasher, presiding.

The annual report of the secretary was given as follows:

Madam President and Ladies:

The Board of Managers of the Home for the Aged met regularly each month throughout the year.

The Home accommodates 36 guests and is always filled to capacity. The year began with 23 names on the waiting list and closed with 30. Applicants are taken into the home in order received.

We are pleased to report very little illness and no deaths during the past year. Each month members of the board visit the home as a visiting committee and are eager to report the systematic and harmonious way the home is conducted. The big family spirit prevails throughout and each member feels his or her relationship toward the other. Mr. and Mrs. Parkes have proven most capable and diplomatic managers in the home and it is through their able management this spirit is maintained.

Potentialities have been given as in former years under the able chairmanship of Mrs. William Frey. These have not only been enjoyed by members of the home but many friends and members of the board have been interested and to those who so willingly and gladly gave their time and talents, we are most grateful.

June 15, we held a lawn festival to take the place of the annual fair, usually held early in December. It proved a great success, socially and financially, netting \$316.70.

Donation Day was held October 17. The response was small but we are most grateful to those who did remember the home and its needs.

The board of managers deeply mourns the death of A. D. Rose. Mr. Rose will be greatly missed as a trustee and we hope Mrs. Rose will soon be restored to health to resume her valued place among us.

The board of managers wish to express their great appreciation to the doctors who serve when needed, to the clergymen for the religious services held in the home and any other service they have so readily and willingly given us and to the public in general we are grateful for every thought and deed that has benefited or given pleasure in the home.

To the Kingston Freeman and Daily Leader, for their kindness and willingness in printing our notices and donation lists, we are especially grateful.

Respectfully submitted,  
NELL KYER HARRISON,  
Secretary.

This was followed by the treasurer's report given by Mrs. Fred Warren as shown below:

Receipts.	
Balance in bank	\$ 530.00
Mr. Park's cash balance	100.00
Received from directors	7,391.75

Hospital accounts	55.75
Cleaners, curtains	8.00
Total expenditures for year	\$7,591.35
1934 Balance	\$59.00
	\$5,241.75

LETITIA K. WARREN,  
Treasurer for Board of Managers.

The corresponding secretary, Mrs. E. M. Van Wagoner, reported as follows:

Madam President and Ladies:

The corresponding secretary has for the new administration and all

the honor to submit her report for 1934 as follows:

During the past year five letters of sympathy, four letters of thanks, two letters of inquiry, one accepting a resignation, seven letters of notification of election to board have been written. Also for the donation day there were sent out 75 cards and 30 letters.

Respectfully submitted,  
MAGGIE VAN WAGONER,  
Corresponding Secretary,  
Jan. 17, 1935.

The final report of the year's activities was given by the president, Mrs. Grover Lasher, and appears below:

To the Officers and Members of the Board of Managers and the Board of Trustees of the Home for the Aged:

We have met again in annual session and this is our fifteenth annual meeting, to report upon the achievements of our "year of work." This work is one of mutual service for the benefit of the home and also for the community, because we realize how much it means for any area to have such a place to give comfort and happiness to the many who find it a haven of rest.

Our family has remained unbroken during the past year, though we have had a number of minor illnesses which have been cared for by the physicians of our city. These have given their professional services without compensation, for which we cannot give too high praise. We extend our gratitude to the optometrists and dentists who have given their helpful services so willingly.

Religious services have been held from time to time by different ministers of the city and country as many of the family are unable to attend church and these services mean much to them.

At the monthly meetings the visitors for the month give an account of the conditions in the Home as they have found them. Many members of the family express to the visitors their appreciation of what is being done for their comfort in the Home. Some who have been present at the serving of the meals speak of their attractive and appetizing appearance and of the food provided as being well balanced and nourishing. All holidays and birthdays are celebrated usually with a party and appropriate decorations, and this is made possible by friends through gifts of money to our "Good Cheer" fund.

As vacancies occur, as soon as conditions permit, we admit another from our waiting list. All applicants are considered as to their health, age, character, disposition, etc.

In the loss of Mr. A. D. Rose from our board of directors, the Home has lost not only an active and devoted friend, but a benefactor as well. The almost simultaneous death of Mr. Harry A. Rose, who had been a member of the board of trustees only a few months, was also a great loss.

We express our gratitude to those friends who manifest their interest in so many practical ways. In service, money, gifts or cheer. Some are not able to give as much as others, but the sacrifice of the donor is in many instances proportionately larger. Every contribution, whether large or small, is needed and appreciated. With our larger building and increased family, our need of help to meet these expenses is greater. Our endowment fund established a few years ago, while increasing, is far from sufficient for our needs. With lower rates of interest upon our investments, we could not carry on without the support of the friends of the Home. We invite you to visit the Home at any time to see how wonderful is the work you are helping to make possible.

In closing my three years' stewardship as president of the board of managers, I wish to express sincere appreciation of the able work of my predecessors and of the splendid service of Mr. and Mrs. Parkes and all members of the Home staff for their efforts to make every member of the family comfortable and happy.

And I also wish to recognize the kindly consideration and the loyal and able cooperation of the officers, chairmen, committees, and all members of the board of managers and the board of trustees. For my sincere successor, Mrs. Frank B. Matthews, I would bespeak the same loyal interest and cooperative spirit in the work of the Home, and wish

members of the Home family a happy and prosperous New Year. Respectfully submitted,  
GOLDIE D. LASHER,  
Pres. Board of Managers.

After the reading of the reports officers for the year of 1935 were elected as follows: President, Mrs. Frank B. Matthews; first vice president, Mrs. Frederic Holcomb; second vice president, Mrs. John Saxe, West Hurley; third vice president, Mrs. Bruyn Hasbrouck; recording secretary, Mrs. William E. Simmons; corresponding secretary, Mrs. Virgil B. Van Wagoner; treasurer, Mrs. John W. Matthews.

Bank Raid Victim

Glenn Axline (above), newly elected sheriff, was slain in the raid of four bandits on the Lenore State bank at Lenora, Ill. One bandit later committed suicide and the three others were captured. (Associated Press Photo)

J. RANDOLPH IS ONLY 5-LETTOR CONGRESSMAN

Washington, Jan. 18 (AP)—Although Congress boasts many former college athletes stars there is only one "five-letter-man"—Jennings Randolph, robust representative from West Virginia.

Not only that, Randolph can probably be considered the leading sports dopest on Capitol Hill. For after he finished his brilliant career at Salem (West Virginia) College, he was a sports writer on a Clarksburg newspaper and athletic director for seven years at Davis-Elkins College.

As a 170-pound athlete—some 10 pounds lighter than he is now—Randolph played halfback in football, forward in basketball, first base in baseball, pole vaulted and high jumped and was the West Virginia intercollegiate tennis champion.

He still swings his tennis racket. He also likes baseball and checkers and hunts deer, bear and wild turkeys.

Legion Meets Tonight

The regular monthly meeting of Kingston Post, American Legion, will be held in the Memorial building this evening. The usual routine business will be transacted.

Note to parents: You also were foolish, disobedient, deceitful and irresponsible, and look how well you turned out.

If you rent a house, you do the landlord a favor; but the fellow who charges you rent for money thinks he is doing you a big favor.

Employer (engaging fourth typist within a month)—How about punctuation?

Typist (brightly)—Oh, I'm always on time in the morning!

Correct this sentence: "If you aren't sure you can finish paying for it," said the agent, "I'd rather not accept your first payment."

Wife—What are you doing, John? Husband—I'm trying to figure out a balance to make this balance sheet balance.

When a man decides to jump in the river, you'll usually find there's a girl at the bottom of it.

Cub reporter—I'd like some advice, please, on how to run a newspaper.

Editor—You've come to the wrong person, son. Ask one of my subscribers.

Friend—Do you own the house you live in?

Man—I used to.

Friend—What do you mean "used to"? Did you sell it?

Man—No, I got married.

There is a young man in Kingston who is so deeply and frankly in love that he doesn't brush the face powder off his coat even when you tell him about it.

It's very embarrassing when one's wife is jealous and very humiliating when she isn't.

Mistress—I believe I'll get a job in an office.

Maid—Do you realize, ma'am, the temptations there are in an office?

Mistress—That's just it. I'm going to get a job in my husband's office and protect him from them.

"Take no thought of the morrow" hasn't been forgotten. It still makes a lot of people pay the first installment.

Yes, the "man with the hoe" is to be pitied, partly because he listens too much to the man with the hookum.

Our four big infection centers:  
Teeth  
Tonsils  
Appendix  
Louisiana.

In the old days she got a job because she couldn't get a husband; now the husband is easy to get if she has the job.

The boom years are that period when people contract the debts they have to pay off during hard times.

Bride—You must not expect me to give up my girlhood ways all at once.

Husband—That's all right, little girl; go on taking an allowance from your father just as if nothing had happened.

A stitch in time may save nine, but nowadays people use zippers. So another splendid old adage doesn't amount to so much now.

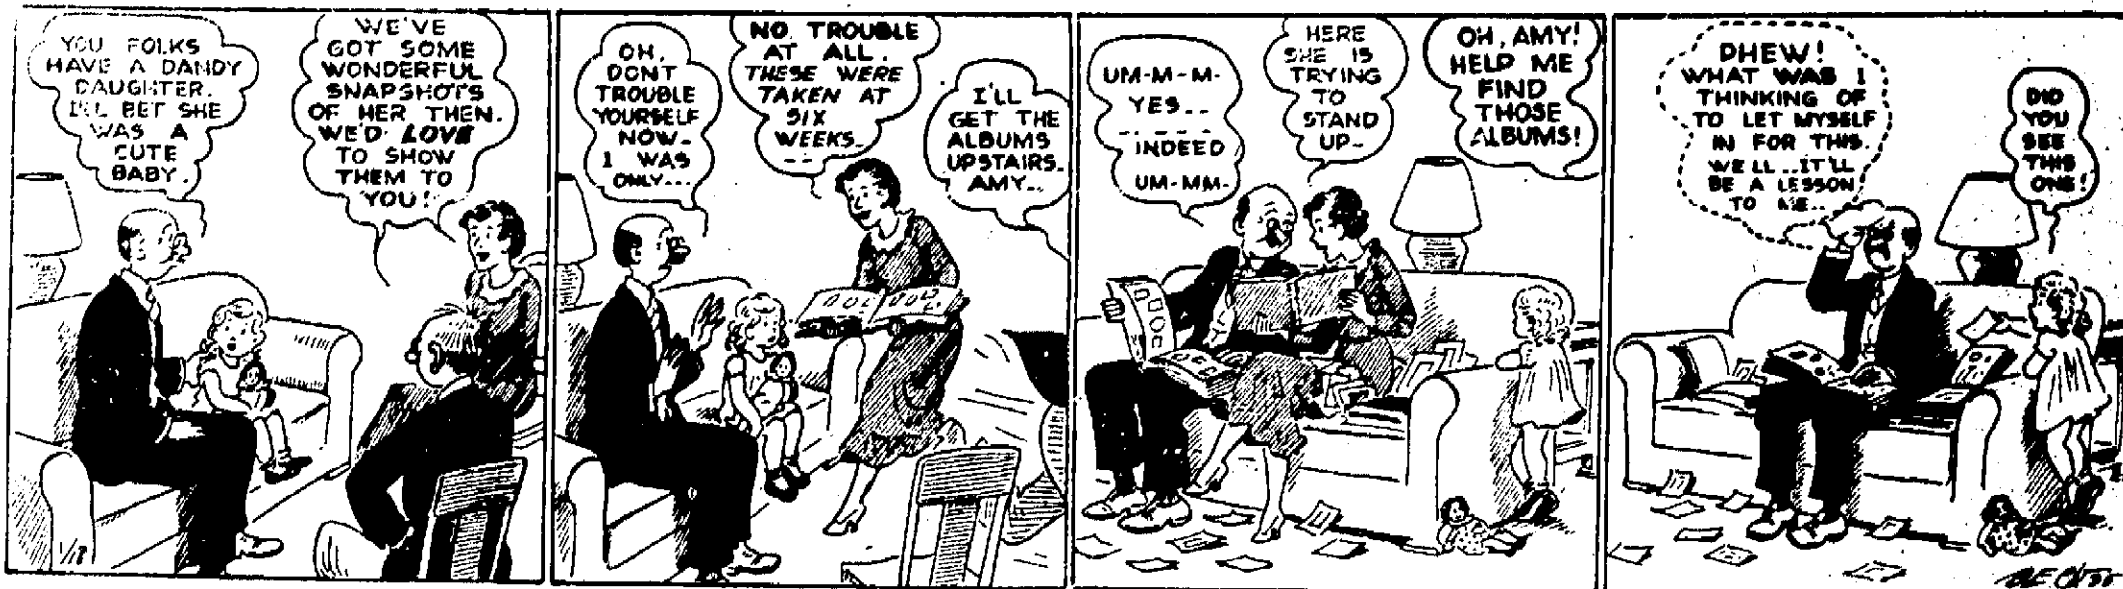

Girl—Aunt Sue, if you had your life to live over again, what would you do?

Aunt Sue—I'd get married before I had sense enough to decide to stay an old maid.

Men invariably find it easier to withstand adversity than prosperity because they get much more practice at it.

The Moss Feature Syndicate, 803 Summit Avenue, Greensboro, N. C.

## GAS BUGGIES—Things To Avoid.

## Britain Plans Cheap Airmail To Link Empire

London (AP)—Six million flying miles of the British empire will be linked by a three-cent per half ounce first class airmail in 1937, says the British air ministry.

That would give Great Britain supremacy over one-third of the world's air routes.

Sir Philip Sassoon, undersecretary for air, says all first class mail will

be dispatched by air after 1937. Shipping circles are silent as to whether existing governmental mail-subsidies will be reduced when the entire transport of first class mail by air is put into operation.

**Many Months of Planning**  
Inhabitants of remote Malaya, South and East Africa, at present 22 days by sea and 9 days by air from London, will have their airmail service shortened by four days. The 12-day London-Australia service will be halved.

This momentous empire service was conceived before C. W. A. Scott's record-breaking England-Australia flight in the Melbourne Air Derby. The scheme has been given

careful consideration, and negotiations have been under way with the dominions for many months. The air routes on a basis which will enable services to cater for passengers as well as mail traffic, and operate by night as well as by day. As in the past, new type of planes for these commercial services will be test flown by factory pilots and by royal air force test pilots. Imperial Airways will pass only on innovations in comfort, interior fittings and decorations.

**Subsidies May Go Up**  
There is every sign of increased air subsidies. The 1934 subsidy was \$2,800,000. Despite the contemplated shorten-

ing of time schedules over empire routes when the new postage rate goes into effect, Britain's commercial air services will concentrate on tons per mile and not on miles per hour. The air ministry intimates that planes will carry a payload of from 3.5 to five tons.

The air ministry believes that when speed is carried beyond a certain point it becomes a secondary consideration with air travellers. Especially in the greater part of the 24 hours is spent in actual flight, passengers demand an increasing degree of comfort.

Readings are changing to auto show lines.

## DREAM TREASURE HUNT RUINS RICH HUNGARIAN

Budapest (AP)—Discovery of the grave of Attila the Hun, with rich treasures believed to have been buried with him, is the goal of 30 years of excavations which have brought the financial ruin of a prosperous family.

Mrs. Ferenc Forgacs, widow of the man who began the digging on Prod Hill, near Hajduboszormeny, finally has found a large corridor which experts say may lead to the grave.

She carried on the work for 20 years after the death of her husband, who spent most of his fortune on the work because he dreamed that

the grave was in the hill. The same dreams came to the widow, she says.

The mainspring as a driving power for clocks was invented 400 years ago but nobody has yet invented one which will make some men work if they can get by an easier way.

## CARE of the HAIR

is one of the dozens of uses you have for HOT WATER

No doubt about it, hot water is one of the necessities of a modern home, important for health, for beauty, but most of all for comfort. It saves time and steps to have it always on hand, plenty of it, without waiting, always at the same even temperature.

Really, it's mistaken economy to do without an automatic hot water supply. Automatic storage water-heaters cost so little now, and can be bought on such liberal terms. The added cost for gas is much less than you would think, too, since there is so much less wasting of heat.

Get the facts about Automatic Hot Water Supply

**GAS and ELECTRIC**  
Improvements may be included in your loan under National Housing Act. Information at any Central Hudson Office.

## HEATING HINTS

by John Barclay

HERE'S the heating thought I want to leave with you today: Never shake a fire that is low. You can't expect to revive a half-dead fire by shaking the life out of it. Simply put on a sprinkling of fresh coal and give it time to ignite. Then when it has ignited completely, shake the grate very gently until the first red glow appears in the ashpit.

Now your fire is ready for refueling. And when refueling remember to fill the fire box up to the level of the bottom of the fire door. A deep fire is much more economical than a shallow one. It burns less coal—lasts longer—and requires less attention.

(16)

Rogers and His Party

While Gen. George Rogers Clark with his forces was floating down the Ohio in 1778 in the start of his campaign against the British strongholds in the Northwest, he came to and crossed the rapids during an almost total eclipse of the sun, says the Cleveland Plain Dealer. But these hardy backwoods men, detaching themselves from supper tables, refused to look upon this as an omen foreboding ill fortune. Instead they joked that this was the sun which Great Britain burned away on English territory—and it was at last setting on America and putting away the Northwest.

## CAPITAL NEWS

**HOLLISTER STURGES, Jr.**  
Albany, Jan. 18 (Special).—With but a score of assemblymen in attendance, yesterday's session saw the advancement of eight bills of the lower house and two that were handed down by the senate for confirmation. The outstanding feature of the day's activities was the report by the committee in charge of the unsettled dispute of Assemblyman Hefland, of Kings county, as to whether or not he is entitled to have his seat in the assembly chamber. This query marked the opening day of the 1935 session, and the resolution as presented Thursday provides that a sub-committee of five members, with a \$5,000 appropriation for legal and other expenses, be composed to settle this much-argued controversy.

In the absence of Lieutenant Governor William Bray, Senator John J. Dunnigan, majority leader, presided at the short meeting of a mere handful of senators, at which only a half dozen were in attendance. Other than introductory proceedings of a number of bills there was no activity in this house. Another legislative day will be held in both chambers today, terminating a full week of the current session.

Revealing testimony was made yesterday by Miss Frieda S. Miller, director of the Division of Women in Industry and Minimum Wage of the Department of Labor, at the joint labor and industry committees of the legislature hearing. Miss Miller told of skilled homeworkers being employed as long as 66 hours a week for as little as \$4.50. Other homeworkers earn but \$1.50 for 30 hours.

An old fashioned and modern dance will be held at the Lake Katrine Grange Hall on

Saturday Evening, Jan. 19

Music by Avery & Nickerson

Tickets ..... 25c

Since the State Department of Labor became the compliance agency for this sort of employment provisions of the various NRA codes and began investigating wages and earnings, these workers have cooperated in furnishing figures on hours and earnings, and now look to the state to provide regulation and protection for them.

"When we speak of industrial homework," Miss Miller said, "we are not talking about the woman who bakes cakes to sell to her neighbors. We are concerned strictly and solely with an industrial situation, namely, that of an employer who sends his goods out of the factory and into private homes to be processed. We are attempting to strike at an old but currently active practice which undercuts the standards of the manufacturer who has set up his plant and supplies equipment to his workers. It is our belief that it is necessary, if we are to safeguard industrial standards so laboriously set up in this state in the past 20 years, that at least minimum standards be set."

Perhaps it is because he is chairman on military affairs of the senate committee, or perhaps just because he has a passion for color schemes, but in any event Senator Ogden J. Ross has instituted a bill requiring school buses to be painted the same hues as our national colors of red, white and blue. A similar measure has been introduced in the assembly, and will give drivers of motor vehicles immediate recognition of buses carrying school children, so that added precautions may be observed. Often is the case of motorists trailing buses and taking for granted that the latter's course will continue uninterrupted, whereas a bus operating in transport of school children is subject to constant stopping even when on the open highway.

Two days ago Senator Fearon had fun jostling a resolution to wish the President of the United States a happy birthday. It of course passed unanimously. But in the Assembly yesterday this was not the case. The resolution states in part that it is directed to the president who led the people out of the depression by the New Deal, and on this score one member took exception. Laurens M. Hamilton, a journalist and Republican from Rockland county, refused to vote in the resolution's favor as long as the words "New Deal" remained and he dissented.

Official tests within recent years show less than 3 per cent of Tennessee's dairy cattle are afflicted with bovine tuberculosis.

## THE GARNERS GIVE THEIR PARTY FOR 1935

The Garners—Vice President John Garner and Mrs. Garner—give one party every year. It's a good one, though, for the guests of honor are President and Mrs. Roosevelt and the lesser lights present include members of the cabinet and the brain trust and their wives and husbands. Shown above at the party are, left to right: Mrs. Garner, Mrs. Roosevelt, the vice president and the President. (Associated Press Photo)

## Concerted Drive to Enforce the NRA

A concerted drive to compel compliance with the provisions of the Shackle Act, the law under which New York state is enforcing NRA, was inaugurated in Albany today with District Attorney John T. Delaney, Chief of Police David Smul and Earl E. Rice, executive assistant in charge of the Albany office of the state director, NRA, all cooperating. It was announced, Arthur Neil owner of the Taft Hotel was arrested on a warrant charged with violations of the code for the hotel industry which alleged he was working his employees more than the maximum hours as allowed by the code, and not paying the minimum wage as called for in the provisions of the code dealing with labor. In addition, two corporation defendants were served with a summons for alleged violations of the State Recovery Act. The Ten Eyck Hotel and the New Kenmore Hotel, through its operating company, Capital Securities Company, were both served with process.

Mr. Neil was arraigned before Judge Francis Bergen this afternoon and bail was set at \$250 for his appearance on January 25.

Three more arrests are expected momentarily for violations of the hour and wage provisions of the Restaurant Industry Code.

Mr. Rice announced today that as a result of a conference which he had with Mrs. Anna M. Rosenberg, state NRA compliance director, it was decided that on violations in the Albany section fullest cooperation would be given to the district attorney's office in prosecuting them. The policy of Mrs. Rosenberg, as followed in the Albany district by Mr. Rice has up to now consisted of giving every member of industry an opportunity of complying with the various codes, and where violations occurred, repeated attempts have been made to adjust the complaints satisfactorily. It is understood that there are many cases in the Albany office covering a great many codes, in which the complainants have indicated their desire to prosecute through the district attorney's office, since all efforts toward making proper adjustments have failed. In each instance the district attorney will have the fullest cooperation of the state director not only in the Albany office but in the main office at 45 Broadway in New York city. It was learned today.

James McGuinness, assistant district attorney, who will be in charge of the prosecution of these violations, in an interview today made the following statement:

"The State Recovery Act, or as it is commonly called, the Shackle Act, will be enforced by this office because it is a law of this state. This legislation was enacted in order to give the state the means of enforcing NRA within its own borders. We shall use every means within the command of this office to punish all violators when cases are referred to us. The same energetic policy will be followed in trade practice violations."

The counties of Ulster, Orange, Greene, Columbia, Putnam, Dutchess, Delaware and Sullivan compose the territory assigned to John J. Duffy, resident field adjuster, which is part of the territory covered by the Albany office of the state director.

**Unpleasant Dreams Officer**  
Various studies of dream phenomena made among college students as well as groups of older people reveal the fact that in the majority of cases, unpleasant dreams occur twice as often as pleasant ones. The reason, it is believed, is that a large percentage of all dreams involve the element of fear.

## Still at Acra Seized by Agents

T. W. Dreesen, Michael Reardon and Joseph Miller, Internal Revenue Bureau agents from New York city, seized a 1,000 gallon alcohol still at Acra, Greene county, about 8:30 Wednesday night. The still was located in a dance hall connected with the Falls Farm House at Acra and according to the officers was in operation at the time of seizure.

Arthur Picard of 128 West 45th street, New York city, was arrested on a charge of operating the still and was arraigned Thursday before U. S. Commissioner A. C. Connelly, who held him in \$1,500 bail. In default of bail he was committed to the Ulster county jail.

In addition to the still about 200

gallons of finished alcohol, some 8,000 gallons of sugar mash and two cars, a Reo and a Ford, were seized.

**Gravitation and Atmosphere**  
Studies of gravitation and the atmosphere show that it is theoretically possible for a shot fired from a gun to leave the surface of the earth and never return. The bullet would have to be projected at a velocity of seven miles a second. But such speed is not inconceivable. The wave of a nitroglycerin explosion travels at the rate of five miles a second.—Collier's Weekly.

**Ice Jam in Niagara**  
Buffalo, N. Y., Jan. 18 (AP)—One of the worst ice jams to choke the Niagara river in years today had isolated several hundred residents of Grand Island. They could reach neither the Canadian nor the American shore. Grand Island, about six miles upstream from Niagara Falls, is larger than Manhattan. The steel work of two bridges, one to each

end of the island, has been completed, but the roadways have not been laid. Two small ferries vainly tried to buck the ice pack.

**Shamrock an Ancient Plant**  
The shamrock, being a form of clover, is one of the most ancient plants in Ireland and was the "seamrock" in Gaelic.

### Pride Of Europe Tackles Broadway

The pride of Europe, Elizabeth Bernger, German stage and film star barred in Nazi Germany, is shown above as she arrived in New York for a fling at a Broadway play before going on to Hollywood. Miss Bernger is hailed by European critics as the "world's greatest actress." (Associated Press Photo)

### WEST SHOKAN

West Shokan, Jan. 18—Howard Lucht of North Main street heights settlement, made a social call Wednesday evening with former farm neighbors at West Shokan heights. The Lucht family owned the present Dolan property.

Community Sunday school services will be held at the church basement Sunday at the usual hour of one o'clock. The members' 1935 slogan is bringing pleasing results in new attendants.

Judge and Mrs. Henry Winchell of Sunny Cliff are making elaborate preparations for the celebration of their 13th wedding anniversary today. A host of friends offer congratulations.

A group of the Ladies' Aid members met at the church basement Wednesday. It was regretted greatly that their efficient leader, Mrs. Nettie Jones, was unable to be present due to her absence in Kingston.

The ice harvest, which was begun Tuesday by the Colange brothers at their Biceville pond, is being disrupted by the heavy snowstorm now in progress. The ice is of excellent quality and 13 inches thick.

Judge and Henry Winchell were among town of Olive stockholders who attended the annual meeting of the Accord Farmers' Co-operative, held Wednesday at Accord. The company's financial statement indicates that last year was a successful one.

It is gratifying indeed among the many friends of John Jordan that he is getting on very favorably from his recent hernia emergency operation at Benedictine Hospital, Kingston.

Olive is prominently represented upon the recently published trial jury call list by Charles H. Weidner and Harlowe McLean, both World War veterans.

Mr. and Mrs. Edmund C. Burgher and Mr. and Mrs. Peter R. Crawford and daughter, Mickey, were west side reservoir community patrons Wednesday evening at Ladies' Night program at Mt. Horeb Chapter, R. A. M., Kingston. Both Mr. Crawford and Mr. Burgher hold leading roles in the chapter staff.

Wednesday's heavy snowfall again brought into efficient use both the town and county snow fighting equipment over the various highways of the reservoir section.

A large delegation of the I. O. O. F. and Rebekah members attended the funeral of Austin Fiero held Wednesday at the Olive Bridge Church. The impressive I. O. O. F. burial ritual was read by Past District Deputies of Shokan Lodge Arthur E. Trowbridge and Virgil C. Gordon.

### HOLLYWOOD SIGHTS & SOUNDS

**By ROBBIN COONS**  
HOLLYWOOD—Hollywood may be surprised by Samuel Kayzer's selection of his "most promising pupil." She is June Knight, who so far on the screen has not won serious consideration as an outstanding dramatic actress.

But Kayzer, who began instructing and "polishing" actors and actresses in 1878, and is continuing his career in Hollywood, predicts great things for her.

"She has a great variety of qualities," he says, "and a more sincere understanding of the inner workings on the mind and the emotions than any potential screen star of today with whom I have come in contact. She is, of course, a diamond in the rough, dramatically speaking, a gold mine not yet worked. When these qualities are developed in her she will show more of her true ability."

### Has Trained Many

Kayzer, who would prefer to stay in the background and, as he puts it, "let his pupils speak of him," for 57 years worked in the theater and in public life, and the names of famous players who have come to him are legion. They include such glamorous figures of another day as Modjeska, Sir Henry Irving, Edwin Booth, and his pupils in Hollywood have included many stars as well as unknown dramatic striplings. It was he who persuaded Modjeska to retain her accent when she made her American debut, and he worked with Ann Harding, Fredric March and others who today are big names in filmland. Miss Harding is still among his pupils.

Politicians, judges, lawyers, public speakers of all kinds have benefited by his training—and yet, he insists, he does not teach elocution, nor dramatics, nor is he a "dramatic coach." He prefers to be known as a "specialist."

### Stars Seek Aid

Two days a week he "keeps school" in his suite at M-G-M, the rest of the time he teaches in his own studios. There he receives players—many of them stars—who want to develop new strength to break away from afflictions that crop up in their work, to conquer new problems in dramatics.

Kayzer predicts that Jean Parker some day "can spread her wings and give a fine, authoritative dramatic performance, can become a truly fine actress."

Of Paulette Goddard, Chaplin's leading lady, he says:

"She has a great dignity and mental strength. Her brain is active, she understands what she reads, and she sincerely desires to develop in that way. I believe she will be a real success."

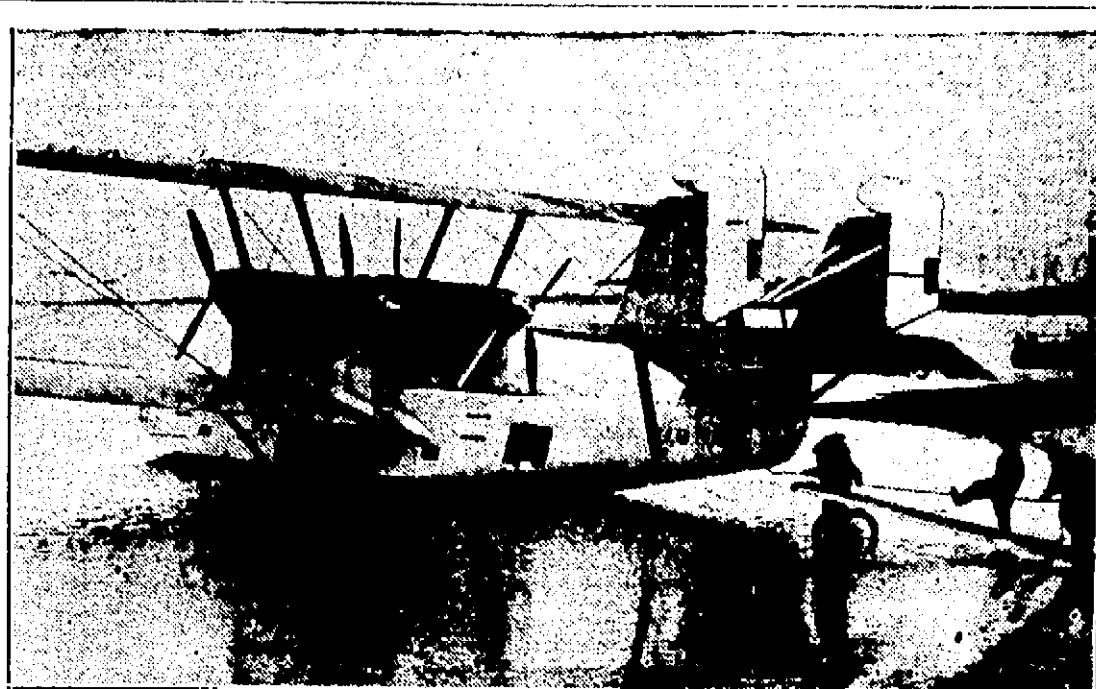

### Baby Replies

Winston-Salem, N. C., Jan. 18 (AP).—Baby Christopher Smith Reynolds today replied to Mrs. Anne Cannon Reynolds Smith's challenge of his legitimacy and right to a part of the tobacco millions of his father, the late Smith Reynolds, with a scathing attack upon her good faith in raising the questions. Through his next friend, R. C. Vaughn, the infant son of Libby Holman, former Broadway torch singer and Reynolds's second wife, filed an answer in Forsyth superior court to Mrs. Smith's effort to bar him from sharing in the estimated \$30,000,000 estate.

Teamster Julian Eckert of Traver Hollow has hauled out a quantity of firewood cut by Charles and Howard Lucht from their north Main street heights woodlands.

Mr. and Mrs. Edward Avery of Maple Dell Farm have returned from their extended vacation trip among the old friends and familiar scenes of their youth along the New York-Pennsylvania border.

Benjamin Burgher of Mt. Tremper, the well known and expert auto mechanic called on his mother and sister at West Shokan Heights on Tuesday evening.

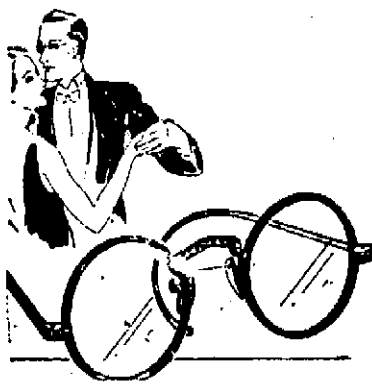

The navy's new giant biplane, XP2H-1, carefully guarded for months from prying eyes while under construction at Hampton Roads, Va., completed its scheduled non-stop hop of 2,000 miles to Coco Solo, Canal Zone, from Norfolk, Va., in 25 hours. Six men made the flight. The plane is shown as it was being launched at Norfolk to start the flight. (Associated Press Photo)

## Mayor Will Speak at Federation Meeting

At the meeting of the executive committee of the Kingston Federation of Women's Clubs, held at the city library on Thursday afternoon, the vice-president, Mrs. Fred Snyder, presiding in the absence of the president, Mrs. Fred P. Luther, the outstanding piece of business transacted was the arranging for an address by Mayor Conrad J. Heiselman on the subject of "A City Manager in Our City and the Revision of Our Charter". The mayor was invited to give such a talk by the Federation of Women's Clubs, through the good government committee, and the mayor very graciously accepted the invitation. The address, and the meeting which will be open to the public, men and women, will be held at the Governor Clinton Hotel—through the courtesy of Manager Gross—on the evening of Monday, February 17, at 8 o'clock.

Following the reports of the secretary, Mrs. William Kumble, and the treasurer, Mrs. J. C. Frazer, such committees and clubs as were represented, gave brief reports. The following new members whose names were reported by Miss Lucy Healy, chairman of the individual membership, were unanimously accepted as was that of Mrs. Edgar T. Shultz; Mrs. E. B. Loughran, Mrs. John B. Kearney and Mrs. Ethel M. Hooke of Lake Hill.

It was voted, following the report of the good government committee, to publicly express the appreciation of the Federation of the annual message of Mayor Conrad J. Heiselman in every particular and to extend congratulations upon the fact once more Kingston has a surplus to its credit instead of a deficit.

It was reported for the public health committee that to date, there has been received in returns from the Christmas Seal sale, \$6,105 with follow-up letters sent out this week to 4,500 persons who have not yet been heard from in any way.

A short letter of greeting was received from the president, Mrs. Luther, who is spending the winter in St. Petersburg, Fla.

### Bakers' Meeting Saturday

A regular meeting of the Bakers' Union, Local No. 151, will be held at the city hall Saturday, January 19, at 7:30 p. m. All bakers in Kingston and vicinity are invited to attend this meeting. Matters of importance to all concerned will be discussed.

## CAMERA RECORDS EVOLUTION OF THE 'HAUPTMANN SMILE'

The camera caught these stages of a smile as Bruno Richard Hauptmann sat in court at Flemington, N. J., listening to the technical testimony of handwriting experts linking him with the Lindbergh ransom notes. First was the straight stare that characterizes his behavior, then a faint grin at something someone near had said, and finally an outright smile, tight-lipped though it is, as the cameras clicked. (Associated Press Photos)

## TOLD OF AUTOPSY ON LINDBERGH BABY

Dr. Charles A. Mitchell (center) Mercer county, New Jersey, medical examiner who performed the autopsy on the kidnapped Lindbergh baby after it had been found dead, is shown here in Hunterdon county court-house as he waited to be called to the witness stand in the trial of Bruno Richard Hauptmann at Flemington. (Associated Press Photo)

## HAUPTMANN VIEWS TRIAL EXHIBITS

Bruno Richard Hauptmann is shown seated in the Hunterdon county courtroom with C. Lloyd Fisher (left), one of his attorneys, looking at some of the exhibits which were introduced in his trial, at Flemington, N. J., for the murder of the Lindbergh baby. (Associated Press Photo)

## FLASHES OF LIFE SKETCHED IN BRIEF

**Fire Drill**  
Statesboro, Ga.—Fire Chief W. M. Hazin must have his little joke—and his men must have practice. Clouds of black smoke caused a general turnout of the citizenry, including the fire department. They dashed to the scene—and found a trash pile burning in a vacant lot. The firemen extinguished the blaze and went back to the station. Chief Hazin said he ignited the blaze to give his ladies' committee. Statesboro hasn't had a fire alarm in two months.

**Didn't Know It Was Loaded.**  
Bassel, Minn.—When James Osborne loaded his pipe with a .22 caliber rifle cartridge besides the usual tobacco, he had a "shooting" which shattered the bowl of his pipe.

**He escaped unhurt.** A friend said.

**Philosophical**  
Chicago — Thirteen-year-old Dick Wozniak is so eager for a new eye he's willing to use a marble. Struck by a snowball, Dick lost an eye. Physicians told him an artificial one would cost \$12, but that amount of cash loomed large in the affairs of Father Wozniak, a relief worker. "Oh well," said Dick, "if dad can't manage it, I'll use a marble."

**River Don't Say 'No'**  
Charleston, W. Va.—The youngsters in Kanawha City Junior High School don't care whether the river stays away from the door—they see a holiday when it doesn't. One of the boys told the principal, "The water's coming in the back way and our feet are getting all wet."

"Well, you go on home, we'll just have to close up for a couple of days," the principal said.

## NEW PALTZ W. C. T. U. HELD MEETING ON JANUARY 16

New Palz, Jan. 18.—A very interesting meeting of the local W. C. T. U. was held Wednesday afternoon January 16, at the home of Mrs. Catherine Schoonmaker on Church street. There were 10 members present and at the appointed hour the president, Mrs. Morgan Constant called the meeting to order and offered prayer in the absence of the appointed devotional leader, Mrs. Ida Stephens. Mrs. Hiram Relyea took charge, sentence prayers were given, the Crusade Psalm was read, after which all sang the Crusade hymn with Mrs. Luther Terwilliger at the piano. Mrs. Relyea offered prayer and a prayer for invalids was read by Mrs. David Corwin, then the hymn "Christ For the World We Sing" was sung by all.

The president opened the business session with prayer. Roll was called each responded with readings of scriptures, reports of the various departments were given also secretary's and treasurer's reports. A Christmas box was sent to the disabled soldiers at Sunmount hospital at Upper Lake at Christmas time and the Union added cheer in various other ways during the holiday season.

The meetings of the prayer circle will be held at the home of Mrs. Luther Terwilliger the second Tuesday of each month until further notice. Considerable other business was transacted after which the afternoon program was turned over to the "peace" department director, Mrs. Rita Camp and the evangelistic director Mrs. Luther Terwilliger. Mrs. Camp read an article "Let's Advertise This Hell" and then read "Twelve Labors of 1935" from the "American Friend" paper. Mrs. Terwilliger's topic was "Prayer" and then "The Power of Prayer" by John A. Moul. She also read several scripture readings from John and closed the program with prayer. Frances Willard Day will be observed at the February meeting and will be held at the Methodist parsonage with Mrs. Robert L. Masterson in charge of the devotion and Mrs. Morgan Constant the afternoon program. The meeting closed with the Mizpah benediction.

### Crater Lake Volcano

It is thought that the volcano whose crater holds Crater Lake may have been destroyed 12,000 or 20,000 years ago.

### Don't Tickle With Coughs

Don't let them get a strangle hold. Fight them quickly. Consumption combines 3 helps in one. Powerful but harmless. Pleasant to take. No narcotic. Your own strength is authorized to defend your lungs and the throat if your cough or cold is not followed by consumption.—A.C.T.

## Poplar Tree Is Beaver's Favorite Along Streams

Beavers are as easy to raise as sheep or pigs. They are more profitable and give less trouble. The beaver flourishes wherever the poplar grows, and was once very much at home all over the continent from the Mexican border north, excepting only the deserts of the south and the sub-arctic barrens. For the native it was an important source of food and warm clothing, and the value of its pelts was responsible for attracting the advance guard of civilization. For a century the beaver skin was the standard of value among the dwellers of the frontier.

As engineers their architectural ingenuity is sufficient to enable them to withstand their natural enemies, the bear, the wolf, the bob-cat, the wolverine and the otter. But they are not nearly so intelligent as it is generally supposed. In fact they are so easily trapped as to be the most difficult animals to protect.

In their wild condition they are friendly and sociable among themselves, but regard other beavers and all other living things as enemies.

### Alloys Compete With Steel

Light alloys of non-metallic resins that have a strength comparable with steel are strong competitors of metals. These substances have long been associated with pipe stems, lunch trays, bracelets, and other novelties, but now they are being made into castings for heavy manufacturing equipment with success. Used with asbestos filler, resins can be molded into pieces of almost any size. The resulting "castings" are much lighter than similar ones of iron.

## Germans Build 'U-Boats,' Overriding Peace Treaty, French Experts Report

By ROBERT H. PARKER.

Paris, (AP).—Charges that Germany is rebuilding her once dreaded submarine fleet have caused a stir in French government circles.

Because of the devastating damage to allied shipping and the accompanying great loss of life wrought by the "U-boats" in the World War, the peace treaty specifically denied Germany the right to launch even a single submarine.

Now French naval experts say that three classes of submarines are finished or under construction. They assert that 40 of them will fly the swastika by spring.

Although France has more than 70 underwater craft, the German traditional skill in designing submarines is considered here as balancing France's numerical advantage.

The whole German sea strength is being restored. Paris has heard, and the French, jittery over reports of the Reich's rearming on land and in the air, are made even more nervous by contemplation of a new German fleet.

Roger Farjon, senate reporter for the navy budget, first helped focus public attention on the subject when he told the senate that Hitler's government had laid the keel of a battleship which would be larger than the limit set by the Versailles pact.

### French Cruisers Outclassed.

The German 10,000-ton "pocket battleships," of which three are in commission with a fourth soon to be laid down, caused France to build her battleship Dunkerque, of much heavier tonnage. Now the newest German light cruisers are said to outclass comparable ships in the French fleet.

The "Nurnberg," sixth light cruiser allowed Germany by the treaty, has just been launched at Kiel. French experts admit she can steam five knots faster than the "Jeanne de Venne" and her sister ships in the French squadrons.

The "Nurnberg" however, is only 5,000 tons as prescribed by the treaty, while the French are 7,729. The resultant fuel saving for the German ships, it is pointed out, gives it a great advantage. Both classes carry nine 6-inch guns.

### See Threat To Commerce.

The new German light cruisers are viewed as potentially powerful commerce raiders. The "Nurnberg" has a cruising radius of more than 7,000 miles at 14.5 knots. Her machinery is partly geared turbines and partly

Diesel engines. "Nurnberg's" sister ships, "Emden," "Koenigsberg," "Karlsruhe," "Koln," and "Leipzig," Germany, under the treaty, may build two more as reserves.

Other comparisons mention 12 powerful destroyers in the German service and state that the whole fleet personnel numbers 4,300 officers and 24,000 men, although the maximum set at Versailles embraced 1,500 officers and 15,000 men.

The French naval establishment counts 4,000 officers and 55,000 men. While this virtually doubles the reported German strength, the French believe that most of Hitler's sailors, like enlisted men in the regular army, are trained to become officers at a moment's notice.

But for the moment the submarine question is causing the most shivers to course French spines, largely because of the detailed figures which accompany the reports from this country's naval experts.

The first submarine class, of which the French say Germany has completed 14, are said to be of 1,800 tons each, with speeds of 20 knots on the surface and 12 submerged. They carry eight torpedo tubes and two deck guns of large caliber.

### One Class Carries Planes.

The second class is reported made up of 4,500-ton craft. The three of this class in service are said to make 24 knots on the surface and 15 under water. Ten torpedo tubes and four deck guns are listed as equipment.

The third class subs, say French experts, are planned to carry 16 small hydroplanes in their holds, six ready for instant launching and ten dismantled. The planes would be launched by catapult. Although none of this class is in service, the French experts say one will begin its trials early in February.

The airplane-carrying submarines are reported to have cruising radii sufficient to enable them to remain at sea a month. Their planes could be used for bombing enemy coasts.

### Leipzig Jobless Get Smokes.

Leipzig, Germany (AP).—To provide the city's jobless with cigars and cigarettes, the local Nazi winter relief committee has asked for "one smoke-stick out of each package." Smokers are told that this sacrifice "won't hurt you and, moreover, you'll be making a poorer fellow citizen happier."

### British Drivers Dim Lights

London (AP).—A survey by the Brit-

ish Automobile Association revealed that 88 per cent of England's drivers dimmed their lights or made some other effort to avoid blinding oncoming cars at night.

## SHOKAN

Shokan, Jan. 18.—The Shokan Home Bureau met Monday afternoon at the residence of Mrs. Harold Davis in Olive Bridge. Miss Evelyn Nance, county agent, was present as was also Mrs. Emma L. Swope, who taught the first lesson of the current project, "Home Accessories." Mrs. Swope brought to the meeting a collection of needlework, curtains, pillow tops, luncheon sets, table covers and chair seats for use in demonstrating her instructive and interesting talk. Various ideas set forth in the course of the lesson will be employed by members of the local bureau in making specimens of the above mentioned articles as well as a number of other useful and ornamental home accessories. Members of the Shokan bureau present at Monday's meeting were as follows: Mrs. Earl North, Mrs. George VonderOsten, Mrs. Fred Adsit, Mrs. Santi Nadal, Mrs. Fred Gulnaek, Miss Margaret Windrum, Mrs. LeRoy Davis, Mrs. Harold Davis, Mrs. Floyd Merrihew, Mrs. Herman Weldner and Mrs. Alonzo Davis. Of these ladies, Mrs. Gulnaek and Miss Radie McCauley have been received into membership since the December meeting. The time and place of the next meeting of the Shokan bureau will be announced later.

The late Della M. Leonard who died December 18, and whose will was probated in New York city Monday, according to an article in The Freeman, spent her girlhood days in Olive, the family home having been along the Plank road near the present village of Ashokan. Relatives

sharing in the numerous bequests of Miss Leonard are well known to the older residents of this section.

Mr. and Mrs. John Hughes and children of Kingston called on friends in Shokan Sunday afternoon. Mr. Hughes is an old friend of Postmaster General James A. Farley, the two having played ball together in their boyhood days.

Six inches of snow fell in the north reservoir section during Wednesday night and Thursday morning. The social held in the Reformed Church hall Wednesday evening by the Ladies' Aid Society was attended by 50 persons, a number of whom were residents of other communities. Games played during the evening included bridge, pinochle, dominoes and ten pins. Refreshments, consisting of sandwiches, cake, pickles, coffee and tea, were served. Included among those present at this pleasing affair were Mr. and Mrs. Sam Friedman of Ashokan and Mr. and Mrs. Charles Tyler of Traver Hollow.

A local marriage of January 18, 1876, was that which united Charles A. Every and Christine Van Gaasbeek, both of the town of Hurley. The ceremony was performed by the Rev. W. D. Fero, pastor of the Shokan M. E. Church, and witnesses to the nuptials were Charles Wilson and Rosa Smith.

Edward Leyder has returned to his work on the town road following a bronchial illness.

Miss Edna Longyear and Mrs. C. A. Winchell accompanied Mrs. E. C. Burgher, teacher of the Shokan school, to Kingston Friday night upon the occasion of Mrs. Burgher's installation as associate matron of Clifton Chapter, O. E. S. E. Clayton Burgher conveyed the Eastern Star ladies to Kingston in his car.

Leonard F. Ruckert and Homer Markle, Jr., both of Shokan, were

inducted into the office of master and secretary, respectively, of Mt. Tremper Grange No. 1468, at an installation of officers which took place Friday evening, January 4, at the Mt. Tremper hall. Messrs. Ruckert and Markle have long been active in local Grange affairs. A large number of Shokan and Ashokan residents are members of the Mt. Tremper Grange.

John and James Rutherford are planning the erection of three houses along the north boulevard frontage of their recently purchased 27-acre woodlot east of Ashokan village. The property, formerly known as the Goldberg lot, joins the Rutherford farm on the south. The tract contains a quantity of valuable trees of timber size as well as many smaller trees suitable for fuel. "John and Jim" also have a fine woodlot along the west side of the Ridge Road.

L. F. Ruckert began taking the Federal farm census of the town of Olive last Friday. Mr. Ruckert's first trip was through the hill farms north of Shokan and Ashokan villages. Farms in this section are few in number as compared to the days before reservoir construction. Much of the acreage not purchased by New York city has passed into the hands of outside residents who maintain summer homes on their property but do not cultivate the land.

## Hi Ho Sounds Warning

"My native land claims credit for the invention of printing," said Hi Ho, the sage of Chinatown. "Our ancestors also invented gunpowder and never learned to use either with practical efficiency. Let these facts be a warning. Beware the big idea lest it be used against you."

## Lights of New York

by L. L. STEVENSON

A new racket has recently been developed which is closely akin to the graft of prohibition days when a man, presumably a steward of a boat that had just docked, called up and offered liquor "just off the boat." A suave, well-dressed man called Mrs. Grantland Rice and said he was a steward on a liner that had brought to this country some surf boards and other attractive products of the Hawaiian Islands which had been shipped to Mr. Rice by Duke Kahanamoku as a token of his esteem. Unfortunately, there had been an error in landing directions and the gifts had been left at Norfolk where there was duty of some \$25 due. If Mrs. Rice would give him the \$25, the accommodating steward would see that the native products of Hawaii reached her husband.

As Hawaii is United States territory, it didn't occur to Mrs. Rice that there could be no duty on products of these islands. But she did think \$25 was a bit high. Still she finally agreed to pay \$4.05 which was supposed to start the ball and surf boards rolling in the right direction. A young man called for the money. That seemingly had ended the transaction, as he hasn't been seen and nothing has been heard from him since. It is reported that this racket is being worked rather generally among prominent sporting people, some of whom may be susceptible to a bit of flattery.

In many apartment houses, especially the older ones, the dumb waiter is an important part of the life of the apartment dweller. Ice and food come up in it and garbage and refuse go down. At the holiday season, the caps of delivery boys come up with goods and go down with cellophane. Sometimes there are variations. For instance, when an uptown apartment dweller opened the dumb waiter the other morning, a big tom cat leaped out and raced around the place, upsetting stands and other furniture until finally he was shut out of the front door. Investigation by the building superintendent and others as yet has failed to disclose how the cat got into the dumb waiter. Mischievous small boys of the neighborhood are under suspicion.

That happening, however, was nothing compared to one over in Brooklyn. Moans coming from an apartment house dumb waiter caused the summoning of the police. The police heard the moans and tried to go into action. But the dumb waiter was off the track and wouldn't go up or down despite all the jerking—and with each jerk, the moans grew louder. Finally the dumb waiter got back into its place and was yanked up. Then it was found the moans came from a six-foot-three youth. But how he got into the dumb waiter is still a mystery. He had limbed so much beer the night before, he couldn't remember.

Sometimes a husky physique isn't exactly an advantage for an actor. Brian Donlevy is an example. Ever since his start on the stage, producers have picked him as a "boy who could take it." His first tough role was as one of the leathernecks with the late Louis Wolheim in "What Price Glory." Next came the role of boxer in "Three in One." In the first act, he tripped and sprawled on the floor. In the second, he had to fall out of bed with his arms full of books. In "Perfumed Lady," he was hit on the chin and a large Chinese vase dropped on his head every night and matinee. Last season in "The Milky Way," he again portrayed a boxer. In Act I, he was socked on the chin. In Act II, he was hit with a cane until the cane broke and in Act III, he was knocked out by anything but a stage punch.

Having proved that the Irish can take it, he changed over to musical comedy in the hope of a bit less battering. Now, in "Life Begins at 8:30," he is abused nightly by Bert Lahr, who, as the Princeton tomboy, takes several fancy pokes at the Donlevy chin.

## Hurley P.-T. A. Card Party

There will be a benefit card party at the home of Mrs. Matthew DeWitt for the interests of the Hurley P.-T. A. on Wednesday, January 23, at 8 p. m. All interested in cards are asked to fill a table. Reservations may be made by calling Mrs. DeWitt, 915-W-1.

## CCC Men Looking For Gypsy Moths

A group of eleven CCC men from the Boiceville camp started work in Kingston this week inspecting the trees in the city to ascertain if the trees had been attacked by Gypsy moths. This morning the men were busy in the vicinity of West Chestnut street inspecting not only the trees along the curbs but also in the yards. They expect to survey the entire city before the work is completed.

## Oldest Town in U. S.

## Is Located in Arizona

While St. Augustine, Fla., settled about 1565, and Santa Fe, N. M., founded about 1581, each insists it is the oldest town in the United States, the town actually oldest has no chamber of commerce to proclaim or defend its title, according to Dr. Paul S. Martin, assistant curator in charge of North American archeology at the Field Museum of Natural History. This town, Doctor Martin states, is the Indian settlement of Oraibi in the Hopi reservation of Arizona. Oraibi, Doctor Martin contends, is the oldest continuously inhabited community in the United States so far recorded. It probably dates back to at least A. D. 1200, and is thus a good 300 years older than any other town in the country, the museum archeologist declares.

Recent archeological work on the Oraibi site indicates that the present pueblo or town is erected on top of older habitations, built, lived in and deserted many centuries ago. According to tribal legends, Oraibi was founded as a result of a quarrel between two factions of another village, now abandoned. Probably this schism was a result of the age-old perennial battle between the old and the young, which even in more recent times has often resulted in splitting a population and causing a new settlement to be founded, Doctor Martin says.

Henry Elchin, the Bronx engineer, returned to the stand for cross-examination by Edward J. Reilly, chief defense counsel.

**Reilly Discusses Map.**

Reilly, a long pointer in hand, began a discussion with the witness of the map of the Bronx area on which the Elchin indicated yesterday various places associated with the crime.

As Reilly questioned the engineer on details of the big map, Hauptmann leaned forward and watched with attention. Occasionally he seemed to be chewing or biting his under lip thoughtfully.

The attorney had Elchin point out the various spots which figured in the ransom contacts of Dr. John F. Condon with the kidnaper "John."

Q. Where do you say your map indicates Dr. Condon's residence?

A. On the east side of Decatur avenue.

Reilly directed the witness to write "C" on the location of the ransom intermediary's residence "as the jury will know weeks from now."

Dr. Condon's residence was about 4 1/2 miles from St. Raymond's cemetery, Elchin said, responding to Reilly's questioning.

Reilly asked him what routes could be used to go from the Hauptmann house to Woodlawn or St. Raymond's cemeteries.

Q. There are a half a dozen different streets could be used? A. Yes.

**Indicates Station.**

Elchin placed a "J" on the map to indicate the last station on the Jerome avenue branch of the New York subway system. That line runs near Woodlawn cemetery, in which Dr. Condon and "John" talked for an hour and a quarter, shortly before the ransom was paid.

On re-direct examination Attorney General David T. Wilentz asked a few brief questions.

Q. With particular reference to Woodlawn cemetery, the territory surrounding it, is it thickly populated and dense, or is it quiet, sort of country appearing?

A. It is quiet, sort of country appearing.

Q. Are there any residences north, south, east or west in the vicinity?

The query referred specifically to the cemetery gate where John and Jafate talked.

Q. What I'm trying to find out, is is a densely populated area in the vicinity of St. Raymond's cemetery?

A. It is not.

Q. Now tell me how far it is from Mr. Hauptmann's to Woodlawn cemetery, and to St. Raymond's cemetery as a man would go by auto?

A. From Hauptmann's home to Woodlawn cemetery is 2.7 miles, to St. Raymond's, 4.3.

Wilentz concluded and Reilly brought to the witness an aerial photograph of the area about St. Raymond's cemetery.

Elchin identified the picture and Reilly began a discussion of the gateway, which the witness said he had not included in his map.

After being held on the stand for more than a half hour giving geographical details of the Bronx to Reilly and Wilentz, Elchin was excused.

**State Trooper on Stand**

Wilentz then called Sergeant John Wallace, of the state police, who participated in the arrest of Hauptmann last September.

Q. On September 18, 1934, tell us what you did?

A. With New York police and Department of Justice agents, we went to the vicinity of Hauptmann's home in the Bronx where he remained there until 2 a. m. when we were relieved. We returned at 7 a. m. on the 19th. The officers split into three groups.

Q. What happened about 9 o'clock with reference to Hauptmann?

A. The defendant left the residence at 1279 East 222nd street about 9 o'clock.

Q. Did he leave to take his wife to work?

A. Not as far as I know.

As Wallace described, from photographs, the Hauptmann home and the defendant's appearance the morning of the 19th, Justice Trenchard stepped down from the bench to peer over the witness's shoulder.

Q. What did you do next?

A. We saw the defendant again. He came out of the driveway in a Dodge.

The detective told how the police followed Hauptmann as he drove along.

**Tracked Hauptmann**

"We continued the trail of the Hauptmann car until we reached Park Avenue in the vicinity of 178th street."

At Tremont avenue, Wallace said, Hauptmann's car was blocked by a street sprinkler. He had driven, the witness said, at "a fairly good rate of speed, 40-45 miles an hour."

Q. What happened then?

A. I shouted to Hauptmann to pull over to the curb. I got out of the back seat and slid into the front seat of the defendant's car beside him.

A few minutes later Hauptmann was asked to step out on the sidewalk, Wallace stated. "I held him by one wrist."

He was searched, Wallace continued, and a wallet was found in his left hip pocket. There was \$23 in it, including a \$20 bill, which when checked, the witness added, was found to be a "Lindbergh ransom bill."

**Tells of Arrest**

"We continued back to the Hauptmann home," the trooper said after he told how Inspector John A. Lyons, commanding the undercover squad of the New York police, joined the party of officers and their prisoner.

Q. Did he make any explanation of the \$20 gold certificate?

A. He stated the bill was the last of \$200 in gold certificates he had had in his possession during the past few years.

Q. Was he asked if he had any more?

A. He said he had more gold pieces at home.

Q. Now when you got back to the Hauptmann home, what happened then?

A. Hauptmann was brought into the Hauptmann bedroom and a search was made of the room and a strongbox was found containing the gold coins.

**House Searched**

A search was made of the entire house by the investigators.

I was handcuffed to Hauptmann all during the stay at the house when he was being questioned about gold certificates he might have.

Hauptmann and the officers, Wallace said, went to the Central Savings Bank, in the Bronx, where his safe deposit box was opened. The witness said no gold certificates were found there.

Q. Did the papers in the box occupy all the space?

A. It was pretty well crowded.

The party then went to the 2nd precinct police station and a statement was written by Hauptmann, Wallace said.

**Wilentz Hits Defense**

Wilentz in his next questions hit at defense hints Hauptmann was forced to mispell the ransom note in the writing he did at police request after his arrest.

Q. Do you know whether those words were dictated or spelled?

A. I never heard any words spelled to the defendant.

Q. Well what did you hear?

A. I heard the words dictated and Hauptmann wrote them on a piece of paper.

Q. Was Mrs. Hauptmann in and about the premises at the time of the arrest?

A. Yes sir.

Q. Did you find a wooden plane?

A. Yes in the garage.

**Plane in Evidence**

Wilentz brought out that the plane had been identified by the police officers but otherwise was in the condition found.

Frederick A. Pope, of defense counsel, objected to the introduction of the plane as evidence, arguing it was not material, but Justice W. Trenchard admitted the exhibit when the state promised to link it later with the kidnapping ladder.

Wallace said this initial "H" was on the plane when found.

Q. What else did you find at the house?

A. With Mr. Hauptmann and the police officers, I found two packages in the south wall of the garage.

Q. What was in the two packages?

A. In the two packages there were 100 gold certificates in one package, and 83 gold certificates in the other.

Q. Ten dollar certificates?

A. Yes \$10 certificates.

Q. What did you do?

A. The money was counted in the presence of Mrs. Hauptmann. We took one of the bills and checked with the ransom money serial numbers.

"I offer the newspaper and 83 ten dollar gold certificates in evidence as one exhibit," Wilentz announced with a flourish.

**"Hot Money" Admitted**

The defense fought the introduction of the ransom package, but again Justice Trenchard's decision went against Hauptmann and the "hot" money was admitted.

Wilentz opened the package and displayed a thick sheaf of bills to the jury.

As he unwrapped the newspaper and spread the bills in his hand Wilentz remarked "would defense counsel like to look at the bills too."

The attorney general advanced toward the jury and spread the bills fanlike on the rail.

Mrs. Ethel Stockton, juror No. 5, opened her mouth in surprise and turned laughing, to wink at a juror in the back row.

Wilentz had the witness identify a second package of ransom currency found in Hauptmann's garage.

Again the defense objected.

"Will you let me see that money," Justice Trenchard asked.

Wilentz passed up a thick handful of currency—\$1,000 in \$10 bills.

**Evidence Admissible**

The justice returned them after a brief examination, and ruled the evidence was admissible.

Wilentz gravely spread it beside the first package on the jury box rail.

Hauptmann sat expressionless through the "money, money, money" testimony.

The questioning turned to the discovery of the "compartment" in the Hauptmann garage wall in which Wallace said the two packages of money were found.

Wallace, holding a photograph of the section of the garage, pointed out to the jury the compartment formed by a board nailed across two beams.

Q. Now the New York police officers continued to search in and about the garage after that?

A. They did.

Q. What did they find?

A. A gallon shellac can buried under a work bench.

Wilentz offered the shellac can in evidence subject to connection with the case.

"We're going to show now that it was loaded with ransom notes," he said.

Pope objected to the introduction in evidence of the vialish can as having no "materiality" unless shown to have a connection with the case.

**Contents of Can**

Q. What was found in the can?

A. Two cloths were in the top of the can and two packages wrapped in newspaper.

Q. There are the two towels (Wilentz displayed the cloths)?

A. Yes.

Q. I understand you found some money in the shellac can.

A. Yes.

Q. How much money?

A. \$11,920.

Q. What kind of money?

A. Lindbergh ransom money gold certificates.

Wilentz thrust a heavy portfolio full of money into the trooper's lap. "Pick it out for me," he directed and the trooper started to take out package after package.

The bill, as the state sought to develop they were in the same order as listed by the Morgan banking company.

**Jury Sees Money**

The jury box rail was completely lined with money now. The ransom

the newspapers in which they were wrapped, the two towels which covered the money in the shellac can—all these exhibits were there for the eight men and four women in the jury to stare at.

Wilentz turned to add these bills to those already on the jury box rail, with the announcement in formal tone:

"Fifty twenty dollar bills—fifty twenty dollar gold certificates."

He turned to Justice Trenchard and said: "We are showing all of these bills bore the serial numbers listed."

**Rosie Pill Shakes Head**

Juror Rosie Pill rove her eyes along the money-jammed rail and shook her head.

The detective then recounted how he returned to the police station and confronted Hauptmann with the money found.

Q. Did you ask if he had any more money?

A. I did. He said no.

Hauptmann said the money had been in a shoe box and was wet, Wallace related.

"He stated he had it in a basket out in the yard to dry," the witness continued.

Then, Wallace added, Hauptmann told of putting it in the garage.

Court recessed for 5 minutes at 11:40 a. m.

Robert Peacock, assistant attorney general, gathered the ransom money up quickly from the jury box rail as Justice Trenchard announced the recess.

Wallace returned to the stand to face the cross examination of C. Lloyd Fisher as court resumed at 11:48 a. m.

Fisher asked Wallace to "relate your conversations with the defendant Hauptmann at the time of the arrest, just as it happened."

Wallace did so.

Fisher turned the preparation of specimen writings by Hauptmann at the request of the police.

Wallace, pointing to an exhibit held by Fisher, said it had been written "some time after midnight September 20."

From the time of arrest in the morning until he began to write, Hauptmann was handcuffed to Wallace, Fisher brought out.

The courtroom tensed a bit, in anticipation Fisher would attempt to elicit testimony that Hauptmann was forced by police to use the ransom note spellings so he would further link himself to the kidnapping case.

Wilentz objected to Fisher's question on the connection of the money with the extortion indictment pending against Hauptmann.

Justice Trenchard sustained the objection.

Wallace was excused after a brief re-direct.

Mrs. Ella Achenbach, heavy middle-aged woman, followed Wallace to the stand. She said she lived six or seven blocks from Hauptmann's home in the Bronx.

Q. Did you see Mr. Bruno Richard Hauptmann after the kidnapping?

A. One or two days after the kidnapping I saw Mrs. Hauptmann and she said they had just come back from a trip.

**Mrs. Hauptmann's Outburst**

Then came Mrs. Hauptmann's outburst.

Taking up her story she said Hauptmann joined them as they were talking on her front porch that morning.

Q. Did you observe Hauptmann that morning?

A. When he went down my front steps he kind of supported himself on the side of the stoop.

Mrs. Achenbach said Mrs. Hauptmann explained "Richard hurt his leg during the trip."

Wilentz released the witness without further development of the implication that Hauptmann, in his alleged fall from the kidnapping ladder, had received the leg injury.

Mrs. Achenbach sat quietly on the witness stand, her face toward the jury. Hauptmann stared hard at her.

Reilly took the witness.

Reilly asked:

Q. After Anna Hauptmann came back from Europe in 1928 with your children did she present you with a bill?

A. Yes.

Q. And you refused to pay it?

**DIED**

**CARPINO**—At East Kingston, Wednesday, January 16, 1935, Caterina Sacco, wife of the late Francisco Carpio and loving mother of Paul Carpio and Mrs. Luigia Tiano.

Funeral from her late residence John street, Saturday, January 19, at 9:15 a. m., thence to St. Colman's Church, where a requiem Mass will be celebrated for the repose of her soul. Relatives and friends are invited. Interment in the family plot in St. Mary's cemetery.

**COUTANT**—At Union Center, Friday, January 18, 1935, Sarah M. Rose, wife of Simon P. Coutant, in her 81st year.

Funeral private. Please omit flowers. Interment in the Rosendale Plaine Cemetery. Friends wishing to see Mrs. Coutant may do so at the home, Union Center, Saturday evening between the hours of 6 and 8 p. m.

**SILK**—At Port Ewen, N. Y., Wednesday, January 16, 1935, Ann Howan, widow of the late Michael Silk and loving mother of Mrs. John Barlow.

Funeral from the residence of her daughter, Monday, January 21, at 9 o'clock, thence to the Church of The Presentation where a requiem Mass will be offered for the repose of her soul. Friends and relatives are invited. Interment in the family plot in St. Mary's cemetery. Scranton, Pa., papers please copy.

**THE JOINERS**

News of Interest to Members of Fraternal Societies

The regular weekly meeting of Charles DeWitt Council, No. 91, Jr. O. U. A. M., will be held this evening at 7:30 o'clock at the lodge rooms at 14 Henry street.

Monday evening will be District Deputy Night at Rondout Lodge, No. 343, F. & A. M., when District Deputy Grand Master Roger H. Loughran will pay his official visit to the lodge. The lodge has extended an invitation to Kingston Lodge to meet with Rondout Lodge as its guests that evening. There are also expected to be large delegations present from the other lodges in Ulster county. Following the address of the district deputy a social hour will be enjoyed and refreshments served.

**About The Folks**

Richard Comfort of West, New York, N. J., is spending the week with his aunt, Mrs. Alliger, at 209 Foxhall avenue.

The Rev. Paul M. Youn, pastor of St. Paul's Lutheran Church, of Hasbrouck avenue, has moved to 66 Clinton avenue. His phone number remains the same, 1724.

Golden Sunset Lodge, 237, L. A. to the B. of R. T., will celebrate its 30th anniversary with a banquet at McCabe's, Wednesday, January 30, beginning at 8:15 p. m. All reservations must be made by Monday, January 28. Those in charge are Mrs. William Powers, whose phone is 2383-W, and Mrs. H. Wade, 369-J.

**WE ARE MOVING**

Owing to the ever increasing demand for LEVENTHAL'S QUALITY FURS, we have outgrown our present factory quarters. Demand for our furs makes it compulsory for us to move our factory to larger quarters. After January 25th, the home of our new factory will be at 130 West 30th Street, New York City.

But before we move, we will dispose of each and every Fur Coat, Scarf, Jacket, Cape and Muff that we now have in our store or in our factory stock rooms at prices below wholesale cost.

We have just received a new shipment of Beautiful Furs which we must dispose of now during our

**Engagement Announced**

Ellenville, Jan. 18.—The engagement of Miss Dorothy Kiddle of Yonkers to S. Robert Keider of Accord has been announced. Both young people are graduates of the New Paltz Normal School, class of 1934. Mr. Keider, who is a graduate of Kerhonkson High School, is a member of the faculty of that school this year.

**Terpening-Myer**

Lila Myer, daughter of Sidney B. and Mary Osterhoudt Myer, became the wife of Emory A. Terpening, son of Emory and Grace Litts Terpening, of Rifton, N. Y., on January 13. The officiating clergyman was the Rev. Robert Baines, pastor of the Rifton M. E. Church. The wedding took place in the pastor's home on Esopus avenue in the presence of Alida W. and Laura A. Baines.

**Sleighting Party**

West Shokan, Jan. 18.—A group of young people spent a very delightful evening sleighing on the near-by hills on Wednesday evening. The group consisted of Catherine Roe, Irving Hesley, Louise and Helen Thompson, Mavis Miller, Loranis Tweedy, Bernard Raymond, Robert and sister, Ronnie Schneider, Richard Craver, Aartsen Van Wageningen, and Cornelia Davis, also Louise and Dorothy Smith. The latter part of the evening was spent at the home of Miss Cornelia Davis. Refreshments were served consisting of sandwiches, cookies and cocoa. Dare, truth and consequences, also other games, were the main diversions. The evening was also spent singing songs. A good time was enjoyed.

**Gademan-Lazzara**

West Shokan, Jan. 18.—Miss Madeline Lazzara of 2530 Stillwell avenue, Coney Island, and William Gademan, well known proprietor of Bushkill Inn, were united in marriage at a church ceremony in Coney Island at 5 p. m. January 8. Approximately 250 persons witnessed the ceremony, mostly relatives of the bride. A wedding luncheon and merry-making followed at the Lazzara home. Promptly at midnight the happy couple slipped away to New York and shortly afterward left to spend a wedding trip in Miami, Fla. The bride is a cousin of Mrs. William V. Colange of West Shokan. She was given in marriage by her eldest brother, Pete Lazzara. How-

**Card Party.**

On Thursday evening, January 24, there will be a public card party at Masonic Hall, 280 Wall street, under the auspices of Rip Van Winkle Triangle Daughters of the Eastern Star. There will be prizes and refreshments. A small fee will be charged.

**Rosary Card Party**

Reservations in advance please a large turnout of card players at the party in St. Mary's School Hall, Broadway and McEntee street, tonight, run under the auspices of the Holy Rosary Society with Miss Mary McGill as chairman. Bridge, progressive pinochle and euchre will be played. Bridge players are requested to furnish their own cards. Refreshments will be served.

**Levine-Rappaport**

Ellenville, Jan. 18.—Miss Besse Levine, daughter of Mrs. Ida Rappaport, of Ellenville, and Irving Levine, son of Mr. and Mrs. Meyer Levine, of Mountandale, were married Saturday evening, January 12, at the Nevele mansion, Leurenkill. The bride's sister, Mrs. George Smith, was matron of honor; another sister, Miss Regina Rappaport, also Miss Dora Levine, sister of the bridegroom, Miss Rose Jacobowitz and Miss Celia Jacobowitz, were bridesmaids. The bridegroom's attendants were George Smith, best man; Irving Rappaport, Louis Schwartz, Nat Gold and Bernard Stambler, ushers. The Rev. Louis Selsky of Mountandale performed the wedding ceremony and there was choir music. Mrs. H. Resnick, wife of Judge Resnick, of Fallsburg, sang "O Promise Me." The bride was beautifully gowned in white maitresse crepe and a tulle veil caught with tiny clusters of lilies of the valley. She carried a bouquet of calla lilies. The matron of honor wore a black chiffon velvet gown and a corsage of sweet peas. Immediately after the ceremony the couple left for a wedding trip to Atlantic City, N. J., and upon their return will make their home in Mountandale.

## Soviet Hospitals Guard Health in Eastern Siberia

Khabarovsk, U. S. S. R. (AP)—Extensive plans have been outlined by the Soviet Union for protection of the health of soldiers and the civil population in this fast-growing section north of Manchoukuo.

The territory has assumed special importance to the Moscow government because of the problems arisen since the creation of Manchoukuo as an independent state under the aegis of Japan.

Khabarovsk, headquarters for the Red Army of the Far East, will be the chief medical center. A big medical institute including a school, quarters for students and professors, and extensive bacteriological laboratories will be built here at a cost of \$3,000,000. In addition an enormous hospital is to be erected by the city.

Blagoveshchensk also is to have a medical school and a pharmaceutical school will be erected at Vladivostok. Hospitals providing 1,000 beds in all are to go up in Suchany, Spassk, Petropavlovsk, Nikolaevsk, Bikine and Birobidjan.

In addition to doctors, the new schools will train nurses, midwives and specialists in sanitation to serve the new settlements under pioneering conditions.

## BRITISH "MOTHER PLANE" TAKES MAIL SHIPS ALOFT.

Rochester, England (AP)—A giant "mother" seaplane, capable of carrying a smaller plane on its back and releasing it in midair, is under construction here. It will be tested in June.

It is planned to attach a heavily-loaded, single-motored mail plane to the upper wing and fuselage of the monster. The smaller "ship," which would be unable to lift its heavy cargo of gas and mail, will be released by a special device, after which the "mother" will return to the harbor.

Postal authorities hope by this method to increase the cruising range of the smaller craft by more than 1,000 miles.

## GERMAN WILLIS OUTDATED: SAXONY ORDERS REVISIONS.

Dresden, Germany (AP)—The Saxony government has asked 18,000 testators to revise wills dated prior to January 1, 1924.

The order states that most of these documents contain provisions which the World War, the inflation or the Nazi revolution has made impossible of fulfillment. They thus are likely to burden the courts, with litigation.

The wills are on deposit with the Dresden record bureau. Citizens who are custodians of their own last testaments were also advised to check up and make sure that their legacies are "in tune with the times."

## My Beauty Hint

By DOBBIE BEALL  
(Screen Actress)

Brushing the hair regularly will keep it glossy and clean between shampoos. A good shampoo is had by massaging the scalp well with olive oil and washing in warm water with a mild soap.

There never yet was a crook smart enough to fool everybody.

## "TOOK ALL KINDS OF PILLS, THEN CEREAL BROUGHT RELIEF"

Constipation, Due to Insufficient "Bulk" Relieved by Kellogg's All-Bran

A fine letter from Mrs. Snyder: "I have had trouble" with my bowels for years, taking all kinds of pills and drugs, with no relief. "One year ago, I saw Kellogg's All-Bran and bought a package. I am 72 years old. I am telling my friends what bran has done for me." Mrs. Sallie Snyder, 918 N. Craft Ave., Hollywood, Cal.

"Constipation due to insufficient 'bulk' in meals."

Research shows that Kellogg's All-Bran furnishes "bulk" to overcome the intestinal. All-Bran also supplies vitamin B, as well as iron, an element of the blood.

Two tablespoons daily are usually sufficient to correct common constipation. With each meal, in serious cases. If not relieved this way, see your doctor.

The "bulk" in All-Bran resists digestion better than the "bulk" in bulky vegetables. How much better to see this food in place of patent medicines.

At all grocers in the red and green packages. Made by Kellogg in Battle Creek.

Keep on the Sunny Side of Life

## MODES of the moment

Cotton and linen dresses—"packable"... practical... for the southern wardrobe.  
Liana Merwin

"The call of the south" is answered by those who are fortunate enough to have the leisure and means to follow the sun and leave the big, bad winter behind.

Gathering a wardrobe for excursions of this kind can be as easy or as difficult as one chooses to make it. With all the easy-to-pack and easy-to-laundry garments specially designed for traveling and southern wear, it should be a simple matter to assemble a wardrobe of practical and smart warm-weather outfits.

At right is a two-piece linen dress

of powder blue. The blouse is fashioned in windbreaker style. It has short sleeves with inverted pleats and pearl buckle trim. Five pearl buckles and self tabs close the front of blouse, while the skirt is tailored with pleats at each side for fullness.

Pictured at left is a smart one-piece red and blue plaid dress of wool-embroidered cotton, with tailored collar, V-neck and short sleeves. Dark blue buttons trim it all the way down front. Patch-pockets with self-buttoned tabs and a braided twine belt of navy complete this chic warm-weather frock.

## BARBARA BELL FASHION PATTERNS

Pattern No. 1570-B

### Smart Spring Dress With Cape

Smart silk dresses show a new type of square neck-line that promises to be prevalent, this spring. They are definitely angular, and the ones that are most interesting are bordered with prints, and have belts that match. Day-time dresses are excessively plain—sleek in fact, without even a pleat to interfere with the tubular effect featured in many of the skirts.

Today's model is a smart example of spring chic. The lines show an interesting play of angles. Deep square armholes provide ease through the bodice. The new elevated waist-line is suggested in the panel of the skirt extending well above the normal line.

Paris is determined to give every dress a cape, or jacket, of its very own. The one made to complete this costume expresses a mid-Victorian flavor in gay convolutions around the elbows, and in a feminine bow of print beneath the chin.

Barbara Bell Pattern No. 1570-B is designed in sizes 14, 16, 18, 20, and in 40 and 42. Corresponding bust measurements 32, 34, 36, 38, 40 and 42. Size 16 (34) requires about 3 1/2 yards of 39 inch material, without the cape; 4 1/2 yards with it; 5 1/2 yard 39 inch printed contrast.

Tomorrow: Youthful frock with crisp details.

### Work Solaces Widowed Queen

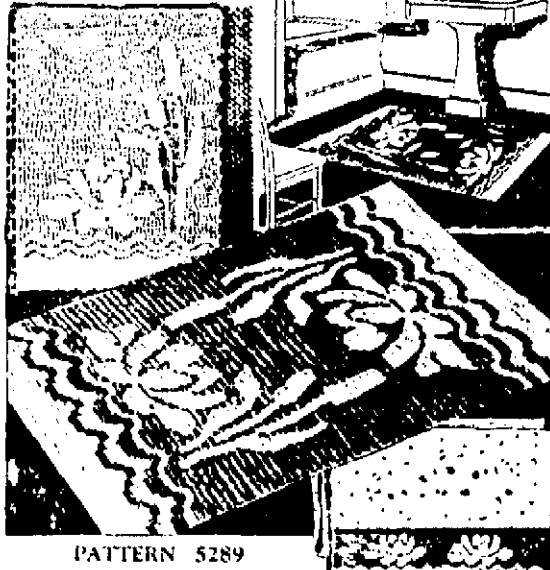

Belgrade (AP)—Queen Marie of Yugoslavia, widowed by the tragedy of October 9 at Marseilles, is finding solace in hard work. Every day she devotes several hours to dis-

cussing women's institutions with delegations from various sections of the kingdom, this course having been counseled by her mother, Dowager Queen Marie of Rumania, as the best way to be worthy of the murdered King Alexander.

Crochet These Accessories For Bedroom or Bathroom

PATTERN 5289

The bathroom today, gay in colored tile and attractive in its modern fittings, is a room of which every housewife is justly proud. By adding this lovely crocheted rug to it, it can be enhanced as well as improved in comfort. The design is so easy to follow for it is given in a clear chart. All you need is your crochet hook—a nice big one—and white and colored candlewicking. You can, of course, use black with a color, for so many bathrooms today are decorated with black. A band for a towel is made in a harmonizing design and is to be crocheted in string. Of course, this rug does just as well for the bedroom and there is a matching design for a scarf to be done in flat crochet in string.

In pattern 5289 you will find complete instructions and charts for making the rug, towel band and flat scarf; an illustration of them and of the stitches needed; material requirements, and color suggestions.

To obtain this pattern send 10 cents in stamps or coin (coin preferred) to the Kingston Daily Freeman Household Arts Dept., 259 W. 14th street, New York, N. Y.

### Swedish Shipyards Recover

Gothenburg, Sweden (AP)—With 21 ships under construction or ordered, for a total of 112,425 tons, the Swed-

ish shipbuilding industry is regarded as back to normal times, or better. It is estimated that Sweden is turning out 20 per cent of the world's new tonnage.

## Figure Flattery

Edited by

LAURA I. BALDT, A.M.

For many years Assistant Professor of Household Arts,  
Teachers College, Columbia University, New York, N. Y.

This charming dress achieves slim smartness in black with white contrast in crinkly crepe silk.

The easy fit of the bodice is especially becoming to mature figures. The collar falls so softly and cuts bodice breadth in a pleasing way. The hips gain a slender look through the bias seaming.

Most interesting of all—even a beginner at sewing could make it's so entirely simple.

Style No. 2770 is designed for sizes 36, 38, 40, 42, 44, 46 and 48-inch bust. Size 36 requires 4 yards of 28 inch material with 1/4 yard of 25 inch contrasting fabric.

Send TEN CENTS (10¢) in stamps or coin (coin is preferred) for PATTERN. Write plainly NAME, ADDRESS AND STYLE NUMBER. BE SURE TO STATE SIZE YOU WISH.

Something new! Something different! Our new Spring Fashion Magazine. Learn about the new fashions. Read the latest make-up hints from New York and Hollywood. The book is ready now. Send 10 cents for your copy to the Pattern Department, Kingston Daily Freeman, 200 Fifth Ave., New York City.

## HUSBANDS ATTENTION!

Bet your wife you can get the washing done in five minutes tomorrow morning and win

With  
**THRIFTY SERVICE**

EVERYTHING WASHED — FLAT WORK IRONED

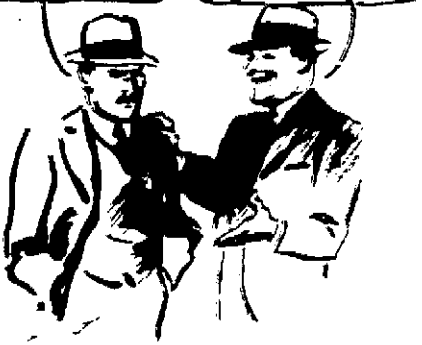

**98¢**

AVERAGE BUNDLE 11 POUNDS

SHIRTS FINISHED ..... 11¢

I HATE TO GO HOME TONIGHT — IT'S WASH DAY AT OUR HOUSE AND MY WIFE IS ALWAYS SO TIRED AND CROSS

MINE USED TO BE, BUT SINCE WE'RE SENDING THE WASHING TO THE LAUNDRY, SHE'S ALWAYS IN A GOOD HUMOR, AND THAT ALONE MAKES IT WORTH THE PRICE!

FIVE minutes to get the washing done? Yes! Just the five minutes it takes to bundle up your wash and phone us to call. So you see, here's your chance to win your bet—and your wife's undying gratitude. She'll be so happy to know that now she can afford to have her washing done. She'll be so happy to know about Thrifty Service—the new home washing service—that many women find is even cheaper than doing the washing at home.

From here on •• read this out loud for your wife to hear

If there's one day in the week every woman dreads, it's washday. If there's one thing she hates to do, it's the washing. No wonder! It's so fun clothing draped in a damp, chilly basement ... wrangling with heavy, dripping clothes ... wrangling, wran-

ing, hanging them up. It's dangerous, too. (Many a cold gets a good start that way!) You wives owe it to your husbands, your children, yourself to stop taking chances with your health—stop wearing yourself out over the family wash.

Make up your mind right now that you're going to put washday out of your life, and out of the home, forever. This week ... and every week ... simply bundle up your clothes and send them to the laundry. We will wash your clothes in rich, fluffy suds—rinse them in gallons of sparkling, rain-soft water, then send them back to you, ready with the flat work ironed. And for this wonderful service (and your whole day of leisure) you pay only 98 cents for a 14-pound bundle. Which is one of the best bargains that has come your way in a long time!

KINGSTON, N. Y.

FINANCIAL AND COMMERCIAL

By CLAUDE E. JACOBSON

New York, Jan. 18 (AP).—Most financial markets were fairly cheerful today but entirely too peaceful to suit the livelier speculative tastes.

Scattered stock specialists found favor with certain traders, although the old-line leaders were content to hold to a small fractional range. Preferred shares, in the 10-unit class, up 1 to around 3 points, included American Type Founders, Schulte, Budd Manufacturing, Mullins Manufacturing and Universal Pipe & Radiator. Several of the farm stocks found followings. Among them, up a point or so each, were Case, Deere and International Harvester. Slightly higher prices were registered by U. S. Smelting, American Smelting and American Can.

Profit taking in General Electric, after its sharp advance yesterday, brought in a easier tone to the stock. Such issues as General Motors, Chrysler, Consolidated Gas, U. S. Steel, Bethlehem, American Telephone, Loew's, Westinghouse (ex-dividend), N. Y. Central, Santa Fe and Union Pacific were virtually unchanged.

Quotations given by Parker, McElroy & Co., members, N. Y. Stock Exchange, 120 Broadway, New York city; branch office, 282 Wall street, 10 o'clock.

Local Death Record

Mrs. Isabelle Ward, wife of the late Edgar M. Ward, formerly of New York city, died at the home in Woodstock, where she resided, on Wednesday, January 16. She is survived by one son, Edgar, of Woodstock. Private funeral services will be held at the Funeral Home of Victor N. Lasher. Interment will be in Woodstock Cemetery.

Highland, Jan. 18.—The death of Mrs. Anna Rogers occurred early Thursday at the home of her stepson, Harry Dobbs, on lower Main street. Mrs. Rogers had made her home here for the past two years coming from Haystack and suffered four strokes previous to her death. She was 73 years of age and is survived by her step-daughter, a daughter in Bayville, L. I., and four sons in New York. Burial will take place in a New York cemetery.

Sheridan Rose, died at his home in Shady Wednesday, January 16. He is survived by four brothers, Walter of Madison, N. Y., Arthur, George and Victor of Shady, and two sisters, Mrs. Ophelia Shultz of Bearsville and Mrs. Harry Fletcher of Madison, N. Y. Funeral services will be held in the Shady M. E. Church Sunday, January 20, at 2:30 p. m. The remains will be placed in the receiving vault in Woodstock Cemetery for interment later in Willow Cemetery.

McCabe's, Wednesday, January 30, wife of Simon P. Coutant of Union Center, died at her home there early this morning. Mrs. Coutant had been a resident of the village for 50 years, and was a member of the Union Center Church, the Ladies Aid, Women's Christian Temperance Union and Ulster Park Grange. She was born in Rosendale. Besides her husband, she is survived by two sons, Olan and Harry B. of Union Center; two daughters, Mrs. Anna Cole of Ulster Park and Mrs. William J. Rafferty, Jr., of Union Center; also six grandchildren. The funeral will be private with interment in Rosendale Plains cemetery. Friends wishing to view the remains may do so at her late home, Saturday evening between 6 and 8 p. m.

HIGH FALLS

High Falls, Jan. 18.—The following were callers at the home of Mr. and Mrs. Thomas Snyder this week: Elias Van Wagenen of Ellenville and Mr. and Mrs. Charles Snyder of Kingston.

Festus Yeaple is ill with the grip. Mrs. Charles Burhans is ill.

Mrs. C. I. LeFevre, Jr., of Bloomington, took dinner with her mother, Mrs. J. M. Barnhart, at Locust Hurst Cottage on Wednesday and also called on her aunt, Miss Jessie Snyder.

Miss Helen Myers, the primary teacher, had her pupils out for a hike one sunny noon this week and they walked up the road to Alligerville as far as the Kaplan boarding house. All seemed to enjoy the tramp.

Earl Rose of the Clove was a caller on John H. Ayers one afternoon this week.

There was quite a heavy fall of snow on Thursday, but the snow plows made quick work of clearing off the roads and Friday turned out to be a beautiful bright winter day.

The Rev. Mr. and Mrs. Clarence Howard and family returned home from New Jersey this week where Mr. Howard was called to attend the funeral of his grandfather.

Frank DePew of Brooklyn and his sister, Mrs. R. Brewer of Mamaroneck, and Dorr Monroe of Kingston called at the DePew home here on Tuesday afternoon after attending the funeral service of Frank DePew, held at Carr's funeral parlors, Kingston.

WOODSTOCK

Woodstock, Jan. 18.—The children of Woodstock, those of kindergarten and primary ages, will have their story hour at the library after school on Saturday mornings, beginning this week, from 10 to 11 o'clock. Any children who like to have stories told or read to them are invited to come to the library.

Thompson will take turns conducting the story hour. A new book, "Bag o' Tales," by Elmo Power, has just been purchased to use for this story hour. The book is crammed from cover to cover with entertaining stories, old and new, for children of all ages, told in charming fashion for reading, or easily adapted to telling. It contains faithful tales, folk tales, hero stories, and fairy tales. Well known stories like "The Three Little Pigs," "The Brave Little Tailor," and "Cinderella," new titles like, "Scarecrow," "Pie of the Princess," and "Nanny Who Wouldn't Go Home to Supper."

Miss Karin Lindia has a position at the Medical Center in New York. Mrs. Julia Lowcraft has returned from a short stay in New York.

Mrs. R. W. Wolcott has recently received a new pupil for drawing lessons.

SPECIAL INDUCEMENT

The Kingston Anti-O-Matic Heating Company of 38 Henry street, local agency for the Williams Oil-O-Matic oil burners, is offering the public a special inducement to purchase one of these burners on or before March 1. Further details may be found in an advertisement appearing in tonight's Freeman.

ETHIOPIAN DEMONSTRATION

General, Jan. 18 (AP).—Ethiopia today demanded an investigation by the League of Nations of its border dispute in Africa with Italy and asked the League to prevent Italy from obtaining from further aggression.

Forestry Work in the Ashokan Reservoir Preserve Great Value

Shokan, Jan. 18.—Travelers on the Ashokan reservoir boulevard recently have had occasion to note the forestry work being done by Department of Water Supply employees in West Hurley "woodlot" of New York city's immense real estate holdings in Ulster county. Here, within the marginal strip along the Hurley dike, a forestry crew is busily engaged in cleaning out the underbrush, together with dead and diseased trees over a strip extending towards the water for a distance of 100 feet or more from the concrete and steel boundary fence. The brush and useless wood is burned on the spot, and all fuel worth saving is hauled to the highway, as the axe-men progress in a westerly direction with their park-like job. To say that this trimming-out process greatly improves the beauty of the city's property is putting it mildly; the work really is transforming that particular section into a beautiful park, and the boulevard into a parkway, and will compare favorably in its aesthetic appeal to the attractively kept environs of the reservoir, several miles further up the reservoir.

Reveals Types of Trees

This piece of forestry work, aside from its value in the transformation of a "deep, tangled wild-wood," impenetrable even to the eye during much of the year, into a clean-looking woodland dotted with small ponds and studded with a great variety of symmetrical trees—all visible for a considerable distance—also tends to draw the motoring public's attention to the fact that the Ashokan preserve contains a vast acreage of deciduous trees, as well as the more noticeable dense stands of evergreens which meet the eye in a drive over the boulevard. The West Hurley sector, for instance, is heavily wooded with several varieties of the oak family, many of which retain their leafless foliage in various shades of red and brown throughout the winter and even until these dead leaves are pushed off by the coming of new buds in the springtime. Other sections have fine stands of pine and hemlock which were growing there naturally before the site for the project was conceived. Stands of heavy timber, such as would delight the eye of a saw-mill man, are found here and there throughout the marginal strip. One of these tracts may be studied at close range, namely that which lies at either side of the middle boulevard, or road leading from Shokan village down to the dividing weir bridge. This mile or so of boulevard incidentally is one of the few spots where the public is permitted to drive through the city's woods, rather than along its edge. The Ashokan forest in fact, constitutes a valuable arboretum wherein practically every native tree is found and is being nurtured; it is not only an asset in its primary role of protecting a water supply but it offers a convenient field for study.

Killing of the Mice

The vast acreage of hardwoods included in New York city's acquisition of 15,224 acres of Ashokan land for reservoir purposes was propagated naturally, much of it in former years having been farm woodlots or more or less extensive tracts of idle forests; the great stands of evergreens, covering scores of old fields and meadows, are the result of a carefully conceived forestry project, which had its start during the early days of waterworks construction. A nursery was started in 1910 consisting of a few seed-beds each 12 feet long and 4 feet wide, the beds being planted with Norway red and blue spruce, Scotch red and white pines and arbor vitae seedlings. Also, 6,422 acres of land were planted with 64,360 transplants into to three years old. The trees in the Shokan nursery, 10,000 in number, were retransplanted in beds without loss, and the transplants being weeded twice during the year and otherwise properly cared for, made a satisfactory showing. Another nursery, at Olive Bridge and not far below the main dam, was enlarged in 1911 to a total of 96 seed beds. About half of the 100,000 seedlings started in the original beds in 1910 were destroyed by mice, whose depredations finally were halted by liberal doses of strychnine-soaked wheat together with a protection of wire netting set six inches into the ground. A total of 41 pounds of seeds were planted in the 91 beds started during the year 1911.

Stand of Young Trees

A good stand of young trees was obtained in a majority of the nursery beds, with the Norway spruce, white pine and arbor vitae evergreens showing the best results. The 12,000 arrivals of the winter of 1910-11 were retransplanted in the beds of the Olive Bridge nursery and the places of the 2,000 seedlings which had died were filled by new trees obtained locally. During 1911, the work of experimental planting in borrow-pits began the previous year was continued with about 1,000 six-to-eight-year-old pines in the Stewart and Lawson borrow-pits. By this method, trees taken up from the reservoir grounds were placed in a hole which was partially filled with soil, thus facilitating the excavation as well as lowering an outer zone of softened earth more or less impregnated with strychnine. The mortality rate in this experiment was small and the young trees were given a good start.

1912 Activities

During 1912, approximately seven acres were added to the nursery and early in May the year-old seedlings were transferred to transplant beds four feet in width and about 100 feet long. The trees were placed in transverse rows spaced six inches apart with the rows three feet apart in the rows. A total of 22,176 trees had been transplanted, and with sand and about 40 pounds of strychnine were planted. Many other trees were planted in newly prepared ground at the nursery during May and June of 1912, and 4,921 white pines, 508 Scotch pines and 9,137 Austrian spruces were used to fill in the 1911 plantings where mortalities had occurred. These nursery trees were planted 15 inches to 24 inches apart in rows 2 1/2 feet apart, and the entire nursery was hoed three times during the year. The trees generally were free from disease though a few of the white pines were found to be affected by wooly aphid. A spraying, first with a 1 to 50 mixture of Bordeaux and later, with Black Leaf 40 in proportion of 1 to 1,000, apparently checked the spread of the aphid.

Vigorous Tree Growth

The growth of trees in the Shokan nursery was vigorous and at the end of the year 7,000 trees at this unit were available for transplanting to their final locations in the border lands of the reservoir. At the Olive Bridge nursery, having 107 seed beds, many seedlings were lost during the summer months as a result of the activities of grubs. There were 20,000 trees available at this point for transplanting. During the year a consignment of Austrian pines, brought from the North-eastern Forestry Co., and the local nursery, the mortality of 25 per cent which occurred during the year was due largely to an unusually dry season which set in before the transplants were finally established. The early-planted trees did well. Trees planted in open borrow-pits did much better than those set in grass and weeds. Some 25,000 trees were taken from Eckert's flats near Olive Bridge and placed in transplant beds. White grubs at this time killed a large number of the little trees, eating the bark from the roots and fatally injuring them before their presence in such large numbers became known. No way could be found to check the depredations of these pests excepting that of digging them out. A May-to-September drought also wrought havoc with the transplants.

Contract 155 was 69 per cent completed at the end of the year, the plantings of 307,500 trees on 254 acres and of 34,800 trees to replace dead trees in areas set out in 1914. This contract was completed September 30, 1916, during which year a maximum of 49 men and 7 animals were employed on the job. 112,500 additional trees were planted, exclusive of replants, the new areas totaling about 100 acres. Work at the city's nursery was less extensive than during former years. During the spring the D. W. S. forestry crews set out 15,000 jack pine, as well as a few European larch, along the toes of the middle and east dikes, at the spillway, and in the open areas of that part of the east basin called Torswiller's Island. There remained at the nursery about 250,000 four-year-old conifers ready for spring planting, and about the same number of seedlings, and two years old, ready for transplant beds. There were also 10,000 larger trees, six years old, reserved for ornamental planting around the gate-houses and other structures of the operating center of the reservoir.

Blister Rust Scourge

During the spring of 1917 an extensive infestation of blister rust appeared among the bull pine and Scotch pine in the Olive Bridge nursery, with the result that thousands of four-year-old trees had to be destroyed. Federal and state inspectors determined that the disease had been spread by an intermediate host, which in this case was wild sweet fern surrounding the nursery. A total of 1,267,800 trees had been planted in four years. At the end of the year the total completed forest planting was 877 acres out of a total planned acreage of 1,100. There was also 2,100 acres of standing forest under-planted and otherwise improved, together with 1,800 acres not improved. The total acreage within the city's taking line is 15,254, consisting of 6,000 acres of forested land, 754 acres of open land (railroads, roads, etc.), and 8,500 acres within the flow line of the reservoir. Thus it is seen that the great Ashokan preserve is given to a beautiful park, partly natural and partly man-made, whose excellent state of preservation is in effect a living tribute to the real and efficiency of Engineer Sidney K. Clapp and his capable staff of foresters.

The Soviet "Timber Trust"

Filed his 1934 program on December 10, when the last of 1,378 steamers carrying wood products left Leningrad for foreign ports.

Forestry Contracts

Contract 155, awarded April 7, 1914, to the North-Eastern Forestry Company and Franklin Forestry Company, called for the furnishing, delivering and planting of trees at the Ashokan and Kensico reservoirs. The first planting was begun April 27, the spring planting was completed May 16 and the fall planting of five days was completed September 15. About 50 men, housed in camps, were employed on this job and the work at the end of the year was 32 per cent completed. Trees were planted at a distance of two paces and the rows were six feet apart. Today, these trees are 20 feet high and more and in many places it is almost impossible to walk through the stands, a condition that will exist until the natural pruning of the branches is completed. The contract transplants consisted of 3-year-old and 4-year-old Norway spruce, white pine, Scotch pine and a few red pine. These were state-inspected and heeled in near the areas to be planted. The tree mortality the first year did not exceed 10 per cent although extreme drought conditions existed here. The spring planting consisted of 100 acres below the Bearkill dike and 106 acres along the northern shore between Shokan and Boiceville. During the fall some 22 additional acres were set out along the north shore.

Crews Very Busy

Meanwhile, the Board of Water Supply forestry crews continued their planting work, including the clearing out of large numbers of dead chestnut trees which had been killed by the recent blight and the cutting and burning of quantities of undergrowth. In the spring of 1914 about 20,000 large trees were taken up from the Shokan and Olive Bridge nurseries and transplanted at Sand Hill near Shokan and at the Winchell Hill tower near the main dam, also a quantity were removed for planting along the aqueduct line between Olive Bridge and Bonticou tunnel. The Shokan unit was then discontinued as the soil had been found not suitable for a nursery. Some 80 seed beds at Olive Bridge were re-seeded. During the year seed was collected from white pine, arbor vitae and hemlock. 50 pounds of clean seed being secured from a collection of 65 bushels of cones. This seed was sufficient for re-seeding all the beds in the remaining nursery as an experimental effort at raising deciduous trees. There were about 350,000 transplants available for setting out in the spring of 1915.

The Year 1915 Found Forestry Work in the Ashokan still being continued: a total of 211,690 four-year old transplants from 5 to 15 inches in height was taken from the nursery, and of these, 25,000 trees were planted along the aqueduct right of way, while the remainder were distributed in open fields and for underplanting in existing woodlands.

Double rows of arbor vitae placed in two lines, staggered six feet apart, were planted just above high water mark and extended for several miles along the shore of both basins. All available seed-beds in the nursery were replanted with seeds collected from local sources, these being mostly of white pine, hemlock and other species. White grubs again made their appearance and destroyed thousands of seedlings and transplants during the use of play and borrow and broadening of time and soil. Another method in checking the pests which found the abandoned farmlands an ideal breeding saw. Planting under

Contract 155 was 69 per cent completed at the end of the year, the plantings of 307,500 trees on 254 acres and of 34,800 trees to replace dead trees in areas set out in 1914. This contract was completed September 30, 1916, during which year a maximum of 49 men and 7 animals were employed on the job. 112,500 additional trees were planted, exclusive of replants, the new areas totaling about 100 acres. Work at the city's nursery was less extensive than during former years. During the spring the D. W. S. forestry crews set out 15,000 jack pine, as well as a few European larch, along the toes of the middle and east dikes, at the spillway, and in the open areas of that part of the east basin called Torswiller's Island. There remained at the nursery about 250,000 four-year-old conifers ready for spring planting, and about the same number of seedlings, and two years old, ready for transplant beds. There were also 10,000 larger trees, six years old, reserved for ornamental planting around the gate-houses and other structures of the operating center of the reservoir.

Blister Rust Scourge

During the spring of 1917 an extensive infestation of blister rust appeared among the bull pine and Scotch pine in the Olive Bridge nursery, with the result that thousands of four-year-old trees had to be destroyed. Federal and state inspectors determined that the disease had been spread by an intermediate host, which in this case was wild sweet fern surrounding the nursery. A total of 1,267,800 trees had been planted in four years. At the end of the year the total completed forest planting was 877 acres out of a total planned acreage of 1,100. There was also 2,100 acres of standing forest under-planted and otherwise improved, together with 1,800 acres not improved. The total acreage within the city's taking line is 15,254, consisting of 6,000 acres of forested land, 754 acres of open land (railroads, roads, etc.), and 8,500 acres within the flow line of the reservoir. Thus it is seen that the great Ashokan preserve is given to a beautiful park, partly natural and partly man-made, whose excellent state of preservation is in effect a living tribute to the real and efficiency of Engineer Sidney K. Clapp and his capable staff of foresters.

The Soviet "Timber Trust"

Filed his 1934 program on December 10, when the last of 1,378 steamers carrying wood products left Leningrad for foreign ports.

Forestry Contracts

Contract 155, awarded April 7, 1914, to the North-Eastern Forestry Company and Franklin Forestry Company, called for the furnishing, delivering and planting of trees at the Ashokan and Kensico reservoirs. The first planting was begun April 27, the spring planting was completed May 16 and the fall planting of five days was completed September 15. About 50 men, housed in camps, were employed on this job and the work at the end of the year was 32 per cent completed. Trees were planted at a distance of two paces and the rows were six feet apart. Today, these trees are 20 feet high and more and in many places it is almost impossible to walk through the stands, a condition that will exist until the natural pruning of the branches is completed. The contract transplants consisted of 3-year-old and 4-year-old Norway spruce, white pine, Scotch pine and a few red pine. These were state-inspected and heeled in near the areas to be planted. The tree mortality the first year did not exceed 10 per cent although extreme drought conditions existed here. The spring planting consisted of 100 acres below the Bearkill dike and 106 acres along the northern shore between Shokan and Boiceville. During the fall some 22 additional acres were set out along the north shore.

## The Street Singer

It seems that those who drive automobiles are not the only ones to suffer when a heavy snow occurs, a number of reports coming to The Freeman office that people are failing to remove the snow from their sidewalks, so that pedestrians must use the roadways if they desire to go any distance on foot.

The police department is responsible for this situation, it being provided that police officers shall see that the walks in front of homes are cleared of snow as soon as possible. By a queer quirk of fate the most flagrant violators of this measure designed to keep the sidewalks clear are the people who are most able to afford to have it done. The situation is all the more sad when it becomes apparent that these persons each own considerable frontage which when left unshoveled causes the pedestrian to wade through heavy snow for considerable distances. However, the more wealthy families are not the only violators as a trip up almost any city street will indicate.

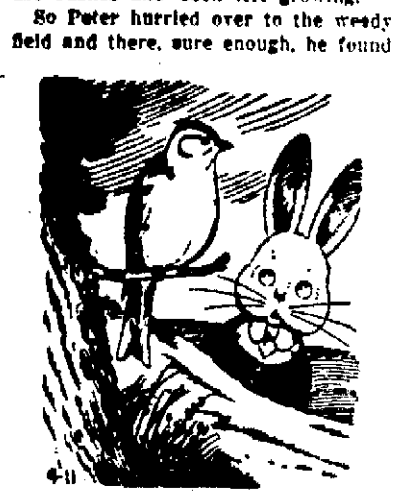

With many out of work but willing to do any kind of job, the opportunity to shovel snow should be given these willing hands. Hardly a snow falls but there are numerous knocks on the door and the query, "May I shovel your walk?" The prices are not high and the fee may add some destitute person only too glad to afford to pay these workers a small sum or not the walks should be cleared, and it is up to the police department to see that it is done.

## "Little Stories for Bedtime" by Thornton W. Burgess

### PETER FINDS DOTTY THE TREE SPARROW

HAVING been reminded of Dotty the Tree Sparrow, Peter Rabbit was eager to find him and learn how he had fared through the winter. He was at a loss just where to look for Dotty until he remembered a certain weedy field, along one edge of which the bushes had been left growing.

"Speaking of Nests, Do You Build in a Tree?" Inquired Peter.

Dotty and a lot of his friends. They were very busy getting their breakfast. Some were clinging to the weed stalks picking the seeds out of the tops, while others were picking up seeds from the ground. It was cold; rough Brother North Wind was doing his best to blow up a snow storm. It wasn't at all the kind of a day when anybody would expect to find anyone in high spirits, but Dotty was. He was even singing as Peter came up, and all about Dotty's friends and relatives were twittering as merrily as if it

were the beginning of spring instead of winter.

Dotty was very nearly the size of Little Friend the Song Sparrow, and looked somewhat like him save that his breast was clear ashy-gray, all but a little dark spot in the middle, the little dot from which he has been named. He wore a chestnut cap, almost exactly like that of Chippy the Chipping Sparrow. It reminded Peter that Dotty is often called the Winter Gull.

"Welcome back," cried Peter. "It does my heart good to see you!" "Thank you, Peter," twittered Dotty happily. "In a way, it is good to be back. Certainly it is good to know an old friend is glad to see me."

"Well, it is good," declared Peter very emphatically. "At best there are few enough folks about in winter, and I don't know of anyone I enjoy having for a neighbor more than I do you."

"Thank you again," cried Dotty, "and please let me return the compliment. I like cold weather. I like winter when there isn't too much ice and stormy weather. I always feel good when it is cold. That is one reason I go north to nest."

"Speaking of nests, do you build in a tree?" inquired Peter.

"Usually on or near the ground," replied Dotty. "Really I am a ground bird, although I am called a tree sparrow. Most of us sparrows spend our time on or near the ground."

"I know," replied Peter. "I'm very fond of the Sparrow family. I just love your cousin, Chippy. I wish he would stay all winter."

Dotty laughed a tinkling little laugh, good to hear. "Cousin Chippy would starve to death," she declared. "He eats worms and bugs and has to go where he can get them. I eat seeds and can get plenty here, so I stay."

### Compensation Cases Heard

The following cases under the workmen's compensation law were heard at the courthouse Thursday by Referee Frederick A. Hoyt:

Robert Buley, Glenford Kingston Machine & Foundry Co., employer. Award 15 per cent left little finger 2 1/4 weeks at \$13.33. Total award \$29.99. Closed.

Ora Gregory, Ellenville; Dwight Divine & Sons, Inc., employer. Adjudged for examination.

Charles Sigbee, Oneonta; Homer E. Lyon, employer. Adjudged for Oneonta calendar.

Wendell H. Davis, R. F. D. 4, Kingston; Dairyman's League, employer. Award 54 2-5 weeks at \$6.40. Total award \$347.73. Adjudged for re-examination in 3 months.

David D. Markle, New Paltz; Smiley Bros., employer. Adjudged. Marion Lounsbury, Mohonk Lake; Smiley Bros., employers. Adjudged.

Richard K. Stewart, Mohonk Lake; Smiley Bros., employers. Adjudged.

James Barry, 74 Tubby street; Kingston Board Public Works, employer. Adjudged.

Thomas McGuire, Saugerties; Jacob Forst Packing Co., employer. Adjudged.

William Rowe, Saugerties; The Martin Cantine Co., employer. Adjudged for examination.

Haven Varnright, Mt. Marion; The Martin Cantine Co., employer. Adjudged for x-ray examination, three months.

Arthur Martin, Saugerties; Adjudged for x-ray examination, four months.

A. C. Burris, 144 Abeel street; Jacob Forst Packing Co., employer. Adjudged for examination.

Floyd Sweet, Saugerties; Martin Cantine Co., employer. Adjudged.

Henry Harma, Saugerties; Diamond Paper Co., employer. Adjudged for examination.

Carl Gasier, Cottkill; A. J. Snyder Lime Co., employer. Adjudged for x-ray examination.

Daniel Morrison, Saugerties; Montgomery Washburn Co., employer. Adjudged.

John Crispine, West Union and Abrayn street; Kingston; The Hutton Co., employer. Adjudged for x-ray.

John Alecca, 2 Beach street; Kingston; The Hutton Co., employer. Adjudged.

Claude Zweifel, Napanoch; Rondout Paper Mills, Inc., employer. Adjudged.

George Studt, 68 Moore street; Kingston; Henry A. Olsen, Inc., employer. Adjudged two months for x-ray.

Edward Guts, New Paltz; George H. Smiley & Son, Inc., employer. Award 1 1/2 weeks at \$5.55. Total \$12.84. Closed.

Horace Jones, Route 3, Kingston; Burton Borer, employer. Award 3 2-5 weeks at \$11.39. Total \$60.39. Closed.

Albert Coneddo; lump sum settlement \$500 approved. No attorney fee. Closed.

#### An Error in Price.

In Harry Merrill's advertisement in Thursday's paper it stated that two half pound jars of Kraft's cheese were to be had for 25 cents; it should have read 28 cents.

#### Finance at Accord.

The regular Saturday night dance will be held at the L. O. O. F. Hall, Accord. Modern and old-fashioned dancing will be enjoyed with music by the Pineola orchestra.

#### Swan Has 8-Foot Wing Spread

The trumpeter swan, largest of North American waterfowl, has a wing spread of some eight feet.

#### Jer of Teat, Heirloom

In Sweden, a unique "heirloom," which is often passed on by four or five successive generations, is a jar of yeast, called Dr. A. Norga, Stockholm, Sweden. In Norway, it is called "Mort" and families not only take pride in making their own special bread and beer but also their yeast which, in many cases, has been kept growing in one jar for as long as 100 years.

### MARLBOROUGH

Marlborough, Jan. 18.—On Monday afternoon Mrs. John Cooney visited the Benedictine Hospital in Kingston, where her brother, William Sturgeon, recently underwent an operation.

There was a large attendance at the card party and dance sponsored by the Catholic Daughters of America, held on Wednesday evening in St. Mary's Hall. Music was furnished for dancing by Tryona's "Ron-de-Voo" orchestra. Prizes were awarded each table.

The West Marlborough Missionary Society recently met at the home of Mrs. James Collins. At the meeting it was decided to donate \$25 to the Salvation Army. The next meeting will be held on February 6, at the home of Mrs. Ralph Cosman.

Mrs. Edward Cosman was hostess recently to the Methodist Ladies' Aid. The next meeting will be held on January 24, at the home of Mrs. Charles Brown.

Mr. and Mrs. Henry Baxter have moved to Chester, where Mr. Baxter has a position. Mr. and Mrs. Baxter formerly lived in the house on the state road owned by M. J. Bradley.

Michael Casey and son, Wilbur, of New Baltimore, visited at the home of relatives and friends on Sunday.

Mr. and Mrs. Calvin E. Staples have returned to their home here after spending a few days in Albany. Vivian Brown recently entertained with a party to celebrate her fifth birthday. She is the daughter of Mr. and Mrs. Charles Brown.

Mr. and Mrs. Joseph Meehan recently entertained in honor of Mrs. Meehan's parents, Mr. and Mrs. William W. Smith, of Newburgh. The occasion was the 35th wedding anniversary of her parents. Among those present were Mr. and Mrs. William Smith, Mr. and Mrs. Ellisworth Smith, Mr. and Mrs. William S. Edgar, Wygant, Abraham and Jane Smith, and others.

Last Wednesday Miss Maud Harcourt was hostess to the Bridge Club.

On January 4, a number of persons enjoyed a straw ride in a Chevrolet truck. After a ride of about two hours they ended up at Huling's Barn, Kingston. Those present were Miss Helen Cinkota and Fred Gledurs of Roseton, Miss Betty Toth, Mr. and Mrs. Edward Lucas, Rudy Lettierio, Lenard Romanelli, Nick Donofrio, Joe Fable and Louise Stella of Roseton, the Misses Hilda Schoonmaker, Mary Carmody, Dot and Madeline Burningham, Margaret Taylor, Katherine Hammett, Stella DeVisti, Clara Beldell, Scot and Fay Smith, Arthur

Slight, George Tompkins, John Baretti, Charles Danosky, Teddy Greda, Joe Abtonelli, Florio Scott, Dick Lewis and Eddie Strinsky of Newburgh and Miss Viola Simms, Babo DeWitt and Florence DeWitt of Marlborough. The ride was given by Miss Florence DeWitt.

Sharon Hutchins, daughter of Mr. and Mrs. J. Doyle Hutchins of Newburgh, formerly of Marlborough, is recovering from a severe cold.

Arnold Mackey is ill at his home. Miss Doris Hildus is recovering from her recent illness.

Mrs. Richard Downer of Roseton spent the past week at the home of Mrs. Frank Hannigan.

Mr. and Mrs. Walter Rann are entertaining their granddaughter of Cohoes for a week.

#### Cornell Hose to Meet.

There will be a special meeting of the Cornell Hose Company this evening at the rooms at 8 o'clock. The entertainment committee will meet half an hour earlier. All members are urged to attend the meeting.

#### Dyed in the Wood

By injecting dyes into growing trees by a secret process, wood is produced veined with red, green, blue, etc. The sap in the tree carries the coloring matter with it.

# PRESENTING THE WIDE WORLD IN PICTURES

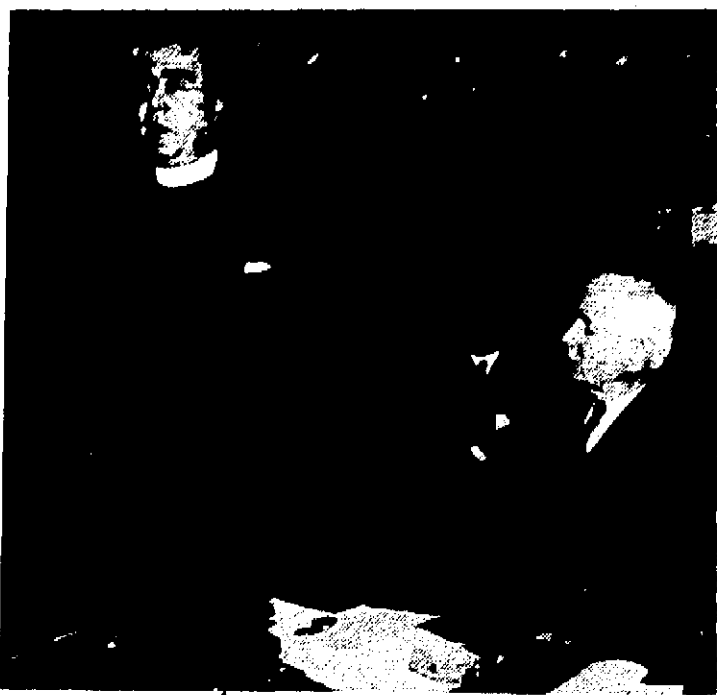

Wide World Photos, Inc., 1935

**AFTER NEW ORLEANS-NEW YORK RECORD FLIGHT:** Miss Marie Reynolds, Captain Eddie Rickenbacker, Mrs. Woodrow Wilson, and Pilots Merrill and Branson (left to right) at Newark Airport after 1,303-mile transport plane flight, made in 6 hours 14 minutes. A cracked oil tank forced them to land at Washington on the return trip.

**SERIOUSLY HURT IN SAN QUENTIN JAIL BREAK:** Warden James B. Holahan, 63, who was entertaining members of the California State Parole Board at luncheon when four convicts broke into his house, forced the officials to change clothes with them, and fled in a state auto after savagely attacking Holahan.

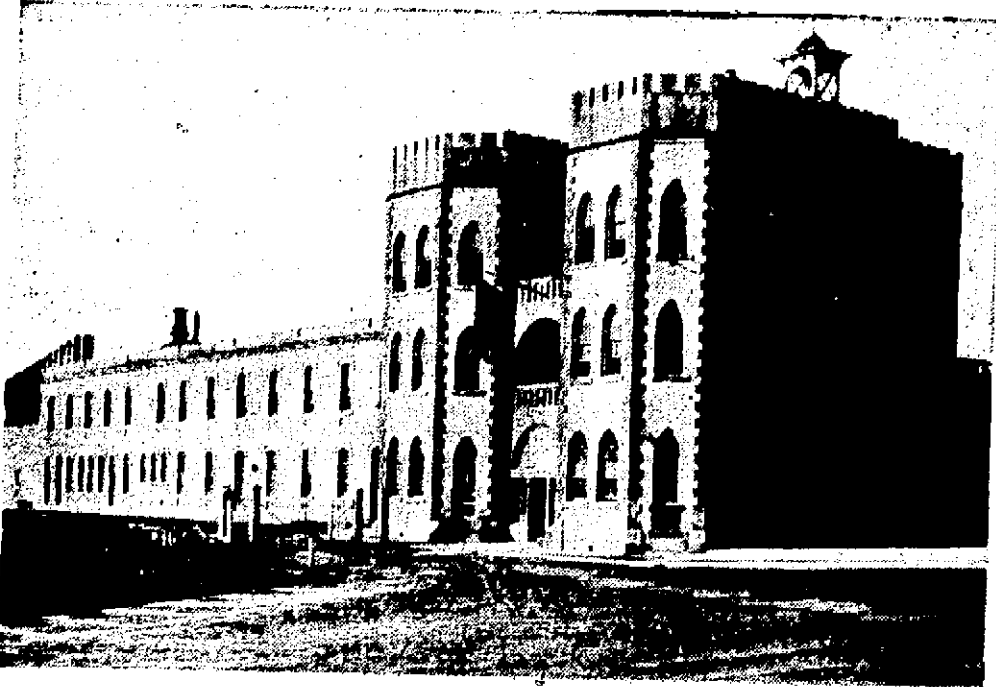

**"RADIO PRIEST" STATES VIEWS AT MONETARY CONFERENCE:** Father Charles F. Coughlin, of Royal Oak, Mich., president of the National Social Justice League, calls upon the National Monetary Conference in Washington to "jettison the monetary philosophy of the past." Senator Elmer Thomas of Montana, Conference chairman, is seated at the right.

**INTRODUCES OLD AGE PENSION PLAN IN THE HOUSE:** Representative McCreary of California, who has offered in the House of Representatives in Washington, the "Townsend plan" which would pension citizens of the United States over 60 years of age at the rate of \$200 a month, the money to be spent within a month after receipt.

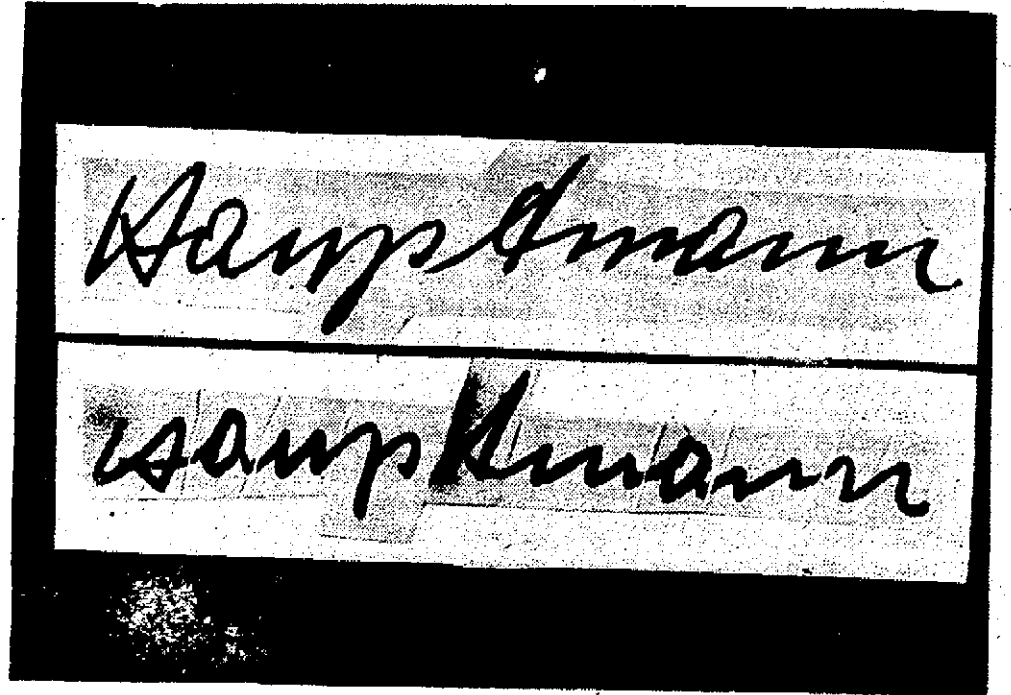

**ANOTHER EXPERT SAYS HAUPTMANN WROTE ALL RANSOM NOTES:** Harry E. Cassidy, handwriting expert from Richmond, Va., with a chart of the mysterious symbols on the ransom notes, testifies on the stand at Flemington, that in his opinion Hauptmann and only Hauptmann could have written the ransom notes.

**THE SCENE OF CALIFORNIA JAIL BREAK:** San Quentin prison, which has accommodations for 3,000 prisoners and now houses 6,000, from which four convicts escaped after beating up the warden and abducting four members of the parole board. They were captured two and a half hours later by a posse in a gun battle in which three of them were wounded.

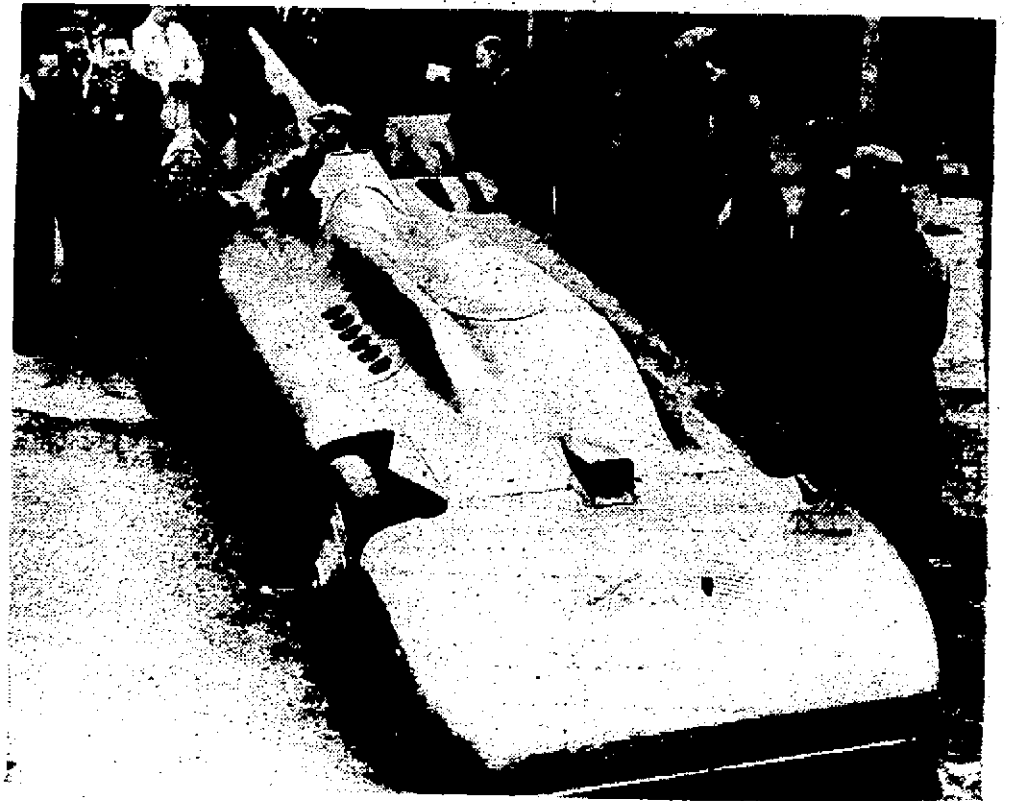

**MOTHER AND SON, BREMER KIDNAPPERS, SLAIN BY U. S. AGENTS:** Fred Barker and his mother, Mrs. Kate (Ma) Barker, long sought as members of the gang which kidnapped the St. Paul banker, who died under the fire of Federal agents in a six-hour machine-gun battle at Oklawaha, Fla.

**EVIDENCE INTRODUCED BY THE STATE AT THE HAUPTMANN TRIAL:** Above, the signature of the defendant in the Lindbergh case and, below, a composite of his name formed by taking the same letters from the ransom notes to make the complete word. It was submitted by James Clark Sellers, handwriting expert, while testifying in the Flemington courtroom.

**THE LATEST IN SUN-HATS:** Lily Damita, French star of the stage and screen, appears at Palm Springs, the California desert resort patronized by Hollywood players, wearing a hat with a wide transparent brim of an amber color.

**READY TO TRY TO BREAK HIS OWN RECORD:** Sir Malcolm Campbell, English speed star, at Brooklands, England, inspects the rebuilt Bloebird in which he hopes to set a new world mark for speed on land, bettering his 1933 record made at Daytona Beach, Fla.

**THE VICE PRESIDENT ENTERTAINS THE PRESIDENT:** President and Mrs. Roosevelt with their hosts, Vice President and Mrs. John Nance Garner, at the dinner in their home at the Washington Hotel. Captain Wilson Brown, the President's naval aide, is on the right.

**ANOTHER MILESTONE ON THE ROAD TO EUROPEAN PEACE:** Premier Benito Mussolini and Pierre Laval, the French Foreign Minister, at their meeting in Rome, when, on behalf of Italy and France, they signed an agreement defining their relations with the Balkan nations.

**ANTARCTIC EXPLORERS WIFE ALSO WINTERS AMONG THE ICE AND SNOW:** Mrs. Lincoln Ellsworth (left), whose husband is now charting new land near the South Pole by airplane, leaving her hotel with a friend for a morning of winter sports at St. Moritz, Switzerland.

**A KING AND QUEEN ON A HOLIDAY IN THE ALPS:** King Leopold, who succeeded his father King Albert as ruler of the Belgians, with Queen Astrid, starting on a ski expedition from St. Moritz, one of the famous winter resorts of Switzerland.

**FURNISHING POWER GUARDED FOR WAR ON KINGFISH:** Ernest J. Bourgeois, 29, president of the Square Deal Association formed to fight Senator Long's dictatorship, speaking at a New Orleans meeting. The organization seeks to form an "army" with units in every Louisiana parish.

PICTORIAL NEWS OF THE WORLD

## Luckies Out To Boost Record Against The Emeralds Tonight

Clover Kids Have Won 11 Out of 15 Contests, Scoring 441 Points Against 346 for Opponents—Hope to Make It Three Over Liberty Cagers, Who Won Once—Niles, Joyce and Van Etten Lead Scorers.

Jack Troy's Luckies will go forth into battle at White Eagle Hall tonight, the team as a whole to stretch its string of victories to 12 and the individual players to bolster their scoring records.

The scoring leader now is Norm Niles. Next come Dan Joyce and Bing Van Etten, occupying second and third place, respectively.

Bun Chilson and Joe Dulin, who lately joined the Luckies, and have strengthened the lineup, are on the tall end, and all because of their tarry start with the Clover Kids.

"The Luckies have won 11 out of 15 games, one of their defeats having come at the hands of the team they are to play tonight, the Liberty Emeralds. The Sullivan county boys plan on ringing up another decision, if this goal is accomplished, then the club will be even, the Luckies having won twice over the Emeralds.

Starting time of the game is 9 o'clock. Two prelims are scheduled, one between the Port Jervis Irish and Collegians at 8 o'clock, and the other between the Holy Cross and Rosendale Girls at 7 o'clock. Dancing will conclude the program.

The list of Lucky scorers, as compiled by Manager F. "Dolly" Tesio, and the record of games won and lost, are as follows:

### List of Scorers

Player	G	FG	FP	TP
N. Niles	15	36	25	57
D. Joyce	12	26	23	75
B. Van Etten	15	19	31	69
P. Schilino	9	22	10	54
D. Kelly	12	18	2	28
C. Rhymer	11	13	9	35
H. Krum	8	12	6	30
A. Dykes	12	10	6	26
B. Chilson	3	4	6	14
J. Dulin	3	1	1	3
Total	161	119	441

Totals 441  
Summary: Won, 11; lost 4.

## Kingston Will Play Monticello Tonight

This evening the Kingston High basketball team will journey to Monticello High School in the second DUSO game for each school. Kingston is the favorite.

This game tonight is the first DUSO contest that the locals will play on foreign territory. Last week the Klamsen lost to Port Jervis, 27-18, and Monticello lost to Ellenville, 23-16. Port Jervis and Ellenville are regarded as the league's present strongest teams. Another comparison of scores are the Kingston-Saugerties games and the Saugerties-Monticello game. Saugerties twice defeated the Maroon basketballers, 34-31 and 34-24. Saugerties defeated Monticello 61-21. Kingston's favoritism is based on these scores.

Although no definite starting lineup has been announced, it is expected Coach Kias will pin hopes on the Beck brothers in the forward positions, Linden at center, and Bahl and Glenn in the back-court, with Scherer, Bruce, and Belchert in reserve.

In other parts of DUSO territory tonight Liberty will meet Newburgh in the hilly city, and Ellenville will play at Middletown. Port Jervis with this week's bye in the DUSO loop will play the East Stroudsburg Teachers.

## Olin-Lewis Match Has Been Postponed

New York, Jan. 18 (AP)—Madison Square Garden will be dark to boxing tonight—all because of an infected tooth.

The aching molar belongs to Bob Olin, light heavyweight champion. It gave him so much pain that he decided for postponement of his 16-round heavyweight match with John Henry Lewis, Phoenix, Ariz., negro contender, scheduled for tonight. After Olin was examined by a state athletic commission physician, an indefinite postponement was granted.

## FIGHTS LAST NIGHT

(By The Associated Press)  
Philadelphia—Wally Sears, 176, Minersville, Pa., outpointed Wade Lutupkin, 177, Miami, Fla., (8).

## BASKETBALL and DANCE TONIGHT

WHITE EAGLE HALL

Luckies vs. Liberty

at 9 o'clock.

## Great Competitive Year for Amateurs

Foreign Trips Should Induce Athletes to Compete—Invitations on File From Sweden, Finland and Other European Countries.

By Daniel J. Ferris,  
Secretary-Treasurer, Amateur Athletic Union.

New York, Jan. 18 (AP)—One of the main reasons why this should be a great competitive year in amateur sports is the inducement to our leading athletes to gain places on teams to be selected for foreign trips. The A. A. U. has discarded its former opposition to having our athletes go abroad in a pre-Olympic year and there will be at least a half dozen expeditions to Europe, Japan and Asia Minor.

Sweden Wants Trackmen.

An invitation has been received from Sweden to have the A. A. U. send another team of six or seven track men across the Atlantic to compete in Stockholm in a big three-day meet next July and thereafter tour Europe.

Finland, which is not on the best of terms with Sweden athletically, has asked the A. A. U. to send a team of five or six track and field men to tour their country, and the French A. A. U. is anxious to have a team tour France, Belgium and Switzerland. Holland, Czechoslovakia, Hungary and Norway also have made inquiries as to whether the A. A. U. would send any teams abroad this year.

Greek-American Team.

A team of Greek-American athletes will compete in Greece in July. The International student games at Budapest in August will attract some Americans and a large squad of Jewish athletes will leave New York early in March to compete in international games in Palestine in April.

With the exception of the Jewish team, the athletes who will be sent abroad as members of these different teams will be selected on the strength of their performances in the National A. A. U. track and field championships at Lincoln, Neb., early in July.

Swimmers to Japan.

A team of 14 swimmers will be selected following the A. A. U. swimming championships next summer to make a tour of Japan.

At home the participation of Erlny, Sweden's great middle-distance runner, in the major indoor meet in the east will lend added interest to the races in which it is expected he will be called upon to face Glenn Cunningham, Bill Bonthron and Gene Venzke.

## SCOUTS DEFEAT METEORS IN SIOUX PRELIM, 33-20

In the preliminary to the Sioux Ranger game in the Reformed Church Hall in Port Ewen, Thursday night, the Port Ewen Scouts defeated the Meteors by a score of 33-20. Jack Spinnenweber showed the way in scoring by gleaming eight points. Prendergast and Van Kleeck scored seven and six points apiece. The Meagher brothers topped the losers with six points apiece. Individual scores were as follows:

### Port Ewen Scouts

Player	G	FG	FP	TP
Prendergast, Jr.	3	7	7	7
Van Kleeck, Jr.	3	0	7	6
Clark, C.	2	1	5	5
Schuman, Jr.	2	0	4	4
Spinnenweber, Jr.	4	0	8	8
Arlinger, Jr.	1	1	3	3
Total	15	3	33	

### Meteors

Player	G	FG	FP	TP
W. Meagher, Jr.	3	0	6	6
J. Meagher, Jr.	3	0	6	6
Leahy, C.	2	0	4	4
Silverberg, Jr.	1	0	2	2
Gelsler, Jr.	1	0	2	2
Total	10	0	20	

Score at end of first half—Scouts 13, Meteors 12. Fouls committed—Scouts 4, Meteors 4. Referee, Munson; timekeeper, Fulton; time of halves, 20 minutes.

## OUTDOOR BOWLING STARS OF ENGLAND COMING OVER.

London, Jan. 18 (AP)—George Wright and T. C. Hills, champion bowling greeners of England, have announced they will compete in the American winter championships starting at St. Petersburg, Fla., on February 14.

Outdoor bowling is one of the favorite sports of England and Scotland during the summer months. More than 200 competitors attended the championships here, won by Wright and Hills.

## QUARTERBACK CROONS WHEN FOOTBALL SEASON'S OVER.

Bozler, Colo., Jan. 18 (AP)—When the football season is over, Bill (Kazo) Lam, Colorado University quarterback, devotes his time to crooning and crooning.

Crooning? Sure. "Kazo" sings with a lulling effect through a megaphone and helps pay his way through school by conducting a dance band.

"Kazo" was met champion of the Rocky Mountain conference in the 115-pound division last year and is regarded as the mainstay of the university grappling team.

Quincy, Ill., Allen Matthews, 155, St. Louis, stopped Church Eastwiley, 152, Denver, (2).

Fairmont, W. Va., Moss Butch, 122, Pittsburgh, knocked out Luis Carpenter, 118, Cincinnati, (1).

Swimming seems to be the sport of families. Take the Neuge family. Helen, the former Olympic diving champion, has five swimming friends.

## Bammin' Fred Sington Of 'Bama To Get Big Chance With Senators

By KENNETH GREGORY  
(Associated Press Sports Writer)

Washington (AP)—Two would be a wise stunt if the carpenters around Griffith stadium reinforced the barriers of the outfield, for Big Fred Sington, the fence buster, is coming to town this spring.

The broad-shouldered, dark-haired athlete won fame at the University of Alabama—a school that has produced many famous diamond stars—where his name is emblazoned as an all-America tackle and a hero of baseball.

Despite his achievements as a football player and many fancy offers from professional teams, Sington decided to cast his lot with baseball and has signed a contract for 1935 as a Senator outfielder.

Sington, who finished at Alabama in the spring of 1931, is just 23, stands six feet two inches and tips the scales at 215 pounds.

Prep Pal of Ben Chapman

Fred began playing baseball in grammar school as a first baseman. One day the pitcher was ill and Fred was called to the mound. He continued hurling through his high school days in Birmingham, Ala., captaining the team in 1926, the year in which he and Ben Chapman, now of the Yankees, were teammates.

Entering the University of Alabama in 1927, Sington pitched a no-hit, no-run game against Mississippi A. & M. In 1928, against Louisiana State, he won his own game with a home run in the tenth inning that broke a 1 to 1 deadlock.

That home run, Fred said, changed him from a pitcher to an outfielder.

Upon finishing school, Sington signed with Atlanta of the Southern association and was farmed to High Point, N. C., where he batted .353.

Scored Winner First Time Up

Recalled by Atlanta in 1932, he was farmed out to Columbus, Ga., of the old Southeastern league, batting .380 and blasting 10 home runs. In 1933 Atlanta again recalled him, but a fractured hand kept him out of action during the last two months of the campaign.

The Atlanta club sold him to Albany of the International league, where he played throughout the 1934 season. His hitting percentage was .338 and among the blows were 29 circuit clouts. He batted in 150

runs and was voted the most valuable Albany player.

This latest siege attracted Washington's attention and the Senators purchased him. He got in the last nine games of the 1934 season.

In his first appearance with the Senators Sington drove in the winning run against the Philadelphia Athletics. "I'll always remember that as one of the greatest thrills I've had," Sington said.

Runs and was voted the most valuable Albany player.

## In County Granges

## Stone Ridge

A meeting of the service and hospitality committee of the Grange was held on Tuesday evening at the home of the chairman, Mrs. Emma Beatty. Those present were Mrs. Oscar Hornbeck, master of the Grange, Oscar Hornbeck, Mr. and Mrs. Luther Garrison, Mr. and Mrs. Cornelius Hardenburgh and Miss Libby Hees. Plans were made for the refreshments for an entertainment to be given by the Grange in the Grange hall on Friday evening, January 25. The entertainment will be free but a collection will be taken and refreshments will be on sale. After the business meeting the hostess, Mrs. Emma Beatty, served appetizing refreshments.

## Highland

Highland Grange members enjoyed the spelling match Tuesday night which was a part of the program. Mrs. M. E. Snider was the one who out-spelled all others. The captains were Mrs. Alvin Stillier and John O'Brien, Jr., with Mrs. George Schreiber giving out the words. The program opened with all singing "The Battle Hymn of the Republic," and closed with the hymn, "Blest be the Tie that Binds." Mrs. Eugenia Sherwood recited the poem, "Tyrant Fashion." The committee on refreshments was composed of Mrs. Mabel Elliott, Earl Kisor, Florence Ball and Charles Auchmoody. There were 36 present. Mrs. Bradford Freer arranged the program.

## STONE RIDGE

Stone Ridge, Jan. 18.—Mr. and Mrs. Earl Osterhout and Mr. and Mrs. Virgil Wagar were Sunday guests of friends in New Hamburg.

The finance committee of the M. E. Church met at the parsonage on Monday evening.

Mrs. Swoop of Ithaca gave a very interesting demonstration on household accessories to the members and friends of the Home Bureau on Thursday afternoon at the home of Mrs. Jesse Markle.

Mrs. Bogen, who is spending the winter in New York, is at her home in this place for a few days.

S. Grunstra, tax collector, will be at the Grange hall on Tuesday, January 23, to collect taxes at 1 percent.

Mrs. Virgil Wagar called on Mrs. Roy Ransom and Mrs. DeForest Blasho last week.

All are glad to hear that Mrs. Ervin Schoonmaker is so much improved she spent the day on Wednesday as a guest of Mrs. Ina Davis.

A very educational and interesting reel on the mining of bituminous coal was shown at the schoolhouse on Tuesday morning.

The Ladies' Aid of M. E. Church held their annual meeting and election of officers at the Sunday school room on Wednesday afternoon. The entire staff of officers was elected for 1935 as follows: President, Mrs. DeForest Bishop; first vice president, Mrs. Ralph Sahler; second vice president, Mrs. John Palen; secretary, Miss Phoebe Brink; treasurer, Mrs. George Weeks.

At 6:30 o'clock the families of the society joined the members and a delicious supper was served to 25 guests. The evening was spent in playing games until 8:30 when the choir met to rehearse for Sunday church service.

Hartley Tanner of Accord, superintendent of schools, called at the schoolhouse on Wednesday and delivered examination papers.

All are sorry to hear that Mrs. Kraft is still ill.

The official board meeting of the M. E. Church which was to be held at the parsonage on Monday evening has been postponed until February 4.

Services at the M. E. Church on Sunday will be as follows: Church school at 9 a. m. The class of Mrs. Edward Muller will have charge of the opening exercises in the intermediate department. Divine worship at 10 a. m. The regular morning sermon will be preceded by a junior message by the pastor, the Rev. Roscoe Strivings. The Epworth League will meet at 7 p. m.

The diphtheria death rate in the United States for 1933 was the lowest ever recorded, 3.5 deaths per 100,000.

## BIG CONSTRUCTION PLANS FEATURE 1934

## Economic Geography of the World Affected by Projects.

Washington.—How the physical and economic geography of the world was affected by important construction projects during 1934 is outlined in a bulletin from the National Geographic society, which lists outstanding engineering accomplishments of the past twelve months.

"The year," says the bulletin, "saw the completion of the 1,200-mile oil pipeline in Iraq, Palestine, and Syria; first use of the world's largest underwater traffic tunnel beneath the Mersey; the shaping up of the first transcontinental railway route through the backbone of the Rocky mountains, west of Denver; the inauguration of travel by streamline, Diesel-engine-driven railway trains; the completion of San Francisco's gigantic water supply system from the Hetch Hetchy valley; the end of construction on the first bridge to cross the lower Zambezi river in Africa; and the throwing open for use of an eleven and one-third-mile railway tunnel through the Apennines, in central Italy—the longest double-track railway tunnel yet constructed.

## Unusual Project.

"The most unusual engineering project of the year probably was the starting of work to air-condition and cool the world's deepest gold mine, a maze of shafts and passages near Johannesburg, South Africa, which reaches to a depth of 8,300 feet.

"From the ways near Glasgow, Scotland, on September 28, came the hull of a thirty-million-dollar giant passenger ship, christened 'The Queen Mary.' The hull was 1,018 feet long and it was estimated that its tonnage would pass 75,000. At the same time, at St. Nazaire, France, another huge ship, 'The Normandie,' which will have a tonnage of more than 70,000, was nearing completion.

"The railway pattern of the world continued to undergo the changes that have been shown during the past few years. In the United States, more trackage was abandoned than the new trackage constructed. The outstanding addition in the United States was the Dotsero Cut-Off, a 38-mile length of track between Oresto and Dotsero in western Colorado. It put into use for the first time for a transcontinental route, Moffat tunnel through the Continental divide west of Denver, saving 175 miles between Denver and Salt Lake City.

"One of the notable bridges completed during the year was the first structure to cross the Irrawaddy river in Burma. It is near Mandalay.

"Work was carried on during the year on the two bridges at San Francisco, across the bay and across Golden Gate—two of the greatest bridge construction jobs ever undertaken.

"The largest lift-bridge ever constructed was put into use at Middlesbrough, England, across the river Tees. The movable deck is 270 feet long and lifts 100 feet above the water.

"The largest dam finished during the year was the Matur irrigation dam in the Chauvry river, Madras province, India. More than a mile long, and 176 feet high, it will impound 660,000,000 gallons of water.

## Hydroelectric Projects.

"Tremendous Boulder dam, in the Colorado river near Las Vegas, Nev., has steadily grown during the year as millions of tons of concrete have been dumped into its forms.

"Three large hydroelectric and irrigation projects in the West were gotten under way during the year: at Grand Coulee, Wash.; at Bonneville, Ore. (both on the Columbia river); and at Fort Peck, on the Missouri river, Mont.

"In the Tennessee valley the Norris dam is rising in the Clinch river near Knoxville, and the Wheeler dam is taking shape in the Tennessee river above the Wilson dam.

"Highways were extended, broadened, and modernized in hundreds of sections of the United States and in many foreign countries. Outstanding among completions of new highways was that of the New Highlands road in Scotland, from Glasgow to Inverness.

"Near the close of the year Hawaii formally dedicated a new highway on the island of Maui leading from sea level to the rim of the huge crater of Haleakala, 10,000 feet above sea level, and 20 miles in circumference.

"Work continued on the first highway from the Texas border to Mexico City. It was estimated late in the year that grading will be completed on the last link of 60 kilometers in March, 1935."

## Versatile Canine Plays

Piano, Drums, Mandolin  
Seattle.—Mickey, four-year-old fox terrier owned by Mrs. D. C. Read, is said to be America's most versatile canine musician. The dog plays the piano, drums, mandolin, guitar and a one-stringed Chinese instrument. He started his musical lessons when six months old, on a toy piano.

Mickey handles the drums with small sticks clipped to his paws. Paws for the stringed instruments also are clipped on. His selections are not always classical, but are effective.

Pecan Tree Worth \$1,000  
In Paris, Texas, a 100-year-old pecan tree, owned by a five-year-old pecan tree valued at \$1,000 and which produces pecans 3 1/2 inches in circumference.

Field, Skewball Horse  
A field horse is one whose coat is composed of large, irregular patches of black and white. The line of demarcation between the two colors is generally well defined. Skewball is the name as applied, says that the colored areas are some other color than black.

## On The Radio Day By Day

Time is Eastern Standard.

New York, Jan. 18.—One of the first non-professionals to appear on Kate Smith's new talent revues, James Farrell, 24-year-old baritone, is seeking a release from his job on the NRA staff in Washington to carry out a contract he has just signed with CBS.

## TRY THESE TONIGHT (FRIDAY)

WEAF-NBC—8—Jessica Dragonette; 9:30—Pick and Pat; 10:30—Frank Black Orch. and choir.

WABC-CBS—8—St. Louis Blues; 9—March of Time; 9:30—Hollywood Hotel, May Robson; 10:30—The O'Flynn; 12—Cab Calloway orchestra.

WJZ-NBC—7:30—Red Davis; 8:15—Dick Leibert's Revue; 9—Beatrice Lillie; 9:30—Phyllis Baker; 11:30—Noble Sissle orchestra.

## Three Autos Were Involved in Accident

Three cars were involved in an automobile accident on Route 9-W, near the entrance to the Sherry place, not far north of the West Shore tracks Thursday. The cars, all being driven south were a Buick sedan, driven by Peter J. Eckert of Glen-erle Park, a Dodge sedan, owned and operated by Anna Kearney of Kingston, and a Ford sedan owned and operated by W. H. Bobear of 701 Lawson street, Upper Derby, Pa., who was accompanied by his wife. The Dodge was being pushed by

the Eckert car and at the entrance to the Sherry place turned to go into the side road. Bobear who was following the two cars and driving in the middle lane, according to the story told Sergeant Cunningham and Trooper Reynolds, blew his horn and attempted to pass, but hit the Kearney car, turning it partly around in the road. The Ford was badly damaged and Mrs. Bobear sustained an injury to her shoulder. No arrests were made.

Location of Hearts of Trees  
The hearts of trees in the Rocky mountain national park region of Colorado are nearer the west or southwest rather than the center, probably due to the force of the westerly wind.

## Tuned in on the 74th Congress

England's Boy King  
England had her share of a boy king. First to mind, of course, is the pathetic Edward V, murdered in the tower of London with his younger brother, the Duke of York. History has thrown the guilt upon the shoulders of Richard of Gloucester, who usurped the throne. Edward VI was only nine when he succeeded his father, the redoubtable Henry VIII on the throne of England. He died before he was sixteen, after a reign in which he was a mere figurehead in the hands of his guides.

Escaped Plumbing Fixtures  
There are two kinds of escaped used in making plumbing fixtures. One is called "regular" and the other "old-fashioned." The old-fashioned kind is extremely hard and impervious and cannot be dented by any of the acids such as those from fruit juices or other things used in the home. In fact, the only acid which can attack it is hydrofluoric acid, a glass solvent. In small, new plumbing equipment you should consider buying fixtures with an old-fashioned finish.

## The Weather

FRIDAY, JANUARY 18, 1935

Sun rises, 7:34; sets, 4:48.  
Weather, clear.

## The Temperature

The lowest temperature registered by The Freeman thermometer last night was 23 degrees. The highest point reached up until noon today was 33 degrees.

## Weather Forecast

Washington, Jan. 18.—Eastern New York: Fair and cloudy tonight; Saturday increasing cloudiness, followed by snow or rain on coast and snow in interior Saturday afternoon or night.

"The Late Chris Bean"  
Title of ERB Show

The local emergency relief bureau has received word from the drama department of the state TERA that it has booked the drama "The Late Chris Bean" for Kingston on the evening of January 31. The play will be presented from the stage of the Kingston Municipal Auditorium and is free to the public, although preference will be given in seating the audience to the members of the families on the relief rolls of the city. The play is presented by professional actors, and is said to be a most interesting one. More complete details will be announced later.

## COTTEKILL

Cottekill, Jan. 18.—The card party at the J. O. U. A. M. hall Wednesday evening was well attended.

Mrs. Charlotte Smedes of Kingston is spending the week-end with her daughter and husband, Mr. and Mrs. Arthur Depuy.

Miss Anna Short of Pocantico Hills, who has been ill at the home of her mother, Mrs. Nellie Short, since the holidays, returned on Saturday to take his place in the schoolroom again Monday morning. The Cottekill volunteer fire company will hold a card party in the firehouse Friday evening, February 1, at 8 o'clock.

## Tar Paper Under Concrete

Before laying a concrete floor in a garage the earth should be covered with one or two thicknesses of tar paper. This will prevent the concrete from picking up moisture from direct contact with the earth, and hence prevent the garage from being damp and cold.

## Lgi is a Mix-Up

The Hawaiian lei is usually made of flowers, feathers, paper, seeds or shells, but occasionally pods, corks, vegetables, match boxes, candy, etc., are employed.

## HOT STUFF

By FLOYD McCRACKEN

© McClure Newspaper Syndicate.  
WNU Service.

DAN MAGIN pulled his worn cap low over a troubled brow. He had not known the Skeet long or comfortably, and with him, even here in the speakeasy, the boy felt impelled to conceal his identity.

"Though, goodness knows, no one here in the city ever would recognize him. The Skeet was speaking.

"It's hot stuff. Understand? Hot!" The Skeet muttered, peering impressively from slits of eyes into the agitated face of the youth sitting across the narrow service table.

If Dan flinched it was against his will. "You ain't gettin' frosted too? That's the h—l of you kids. No nerve!" If the Skeet knew one thing well it was how to handle his man.

"No, no," Dan rushed to deny. "Not cold feet, Skeet. It's nothing to me but a job, you know. You give me the— the suitcase and a fire spot. I take the suitcase to the mayor's house."

"Just that easy." The Skeet eased back in his chair with obvious relief and satisfaction. "An' after that scam, see? Scram an' forget. I'm leavin' town myself. Goin' out on my yacht."

The two rose tensely. Dan accepted a neat brown suitcase gingerly.

The older man slipped the boy a five dollar bill, at the same time repeating directions and muttering a final warning.

"An' none of your funny stuff. The gang's wise and if you don't earn that five—"

The Skeet left Dan to imagine the dark consequence of failure. It was nine o'clock.

The errand must be completed before midnight. Plenty of time, Dan decided, but the sooner it was over the better.

He did not question the nature of his burden, though the Skeet never had discussed that with him.

Alone in the night, the boy shivered with revulsion. For an instant he was tempted to turn the thing over to the police, but only for an instant.

Thoughts of the Skeet's gang quickly drove away that idea. He glanced nervously over his shoulder to see if he might be followed as he boarded a street car.

Finding a seat alone, he held the suitcase carefully on his knees until a policeman came and sat beside him. It seemed unnatural to be holding the thing in this manner.

Dan was afraid the officer might notice and ask questions, so he shoved his burden carefully under the seat.

"Moving?" the policeman asked, smiling with warm friendliness as he glanced toward the disappearing suitcase.

"Yes, yes, moving," Dan muttered deeply.

He felt weak, partly from hunger, partly from fear. "Hot stuff," the Skeet had warned.

"From the country, aren't you?" the officer asked.

Dan didn't want to talk to anybody, least of all to a policeman.

How could a cop tell just by looking at him that he was from the country? "Excuse me, my street," the boy blurted, bolting suddenly from the car with his precious suitcase.

He felt the surprised glance of the officer bore into his back as he hurried down the aisle. He was glad when he reached the street.

He had gained one thing at least by making his sudden move.

No one else left the car with him, and he felt sure that if he had been followed he now had shaken pursuit.

Dan glanced at the suitcase. It was an ordinary oblong affair with brown leather finish. Neat but cheap.

Nothing about it to attract attention. Nothing on the outside to identify it.

Signaling the next outward-bound car, he climbed aboard apprehensively. What he feared he did not know, but he was relieved when a quick survey revealed no policeman aboard.

The car was almost filled. Dan slunk into a seat beside a half-sleeping man he judged to be a seaman, and slid the suitcase carefully under the seat.

A newsboy working through the car spread a paper before Dan's eyes, and the youth's heart jumped into his mouth as he read:

MAYOR DEFIES STRIKERS

Suddenly the seaman leaped to his feet as the conductor called a street name.

Reaching under the seat, the man snatched at the leather bag and lurched into the aisle.

"Hey, you've got my suitcase," Dan shouted, grabbing at the thing.

"Fear suit—my, didn't I just buy this piece of cowhide? And don't I know what's in it?" the sailor demanded thickly. "I got me a new alarm clock in there. Listen, hear it tick?"

Dan put his ear attentively to the leather cover.

Sure enough, tick, tick. The sound quieted his thumping heart.

He reached under the seat and brought out a suitcase exactly like the one held by the seaman.

"My mistake, I'm sorry," the boy smiled weakly.

That had been a narrow squeak. What if the seaman had taken the wrong suitcase?

What might have happened to the sailor, and what would the Skeet have said? Where?

The boy wiped a great bead of perspiration from his brow.

## State Legislature

## Studies San Quentin

San Quentin Penitentiary, Calif., Jan. 18 (AP)—An aroused state legislature planned quick action today for relieving overcrowded conditions in San Quentin prison where four desperate convicts staged an armed reign of terror and bolted to short-lived freedom Wednesday.

The body, in session at Sacramento, received bills and resolutions aimed at correcting conditions in the prison where 6,000 convicts are confined in space intended for only half that number.

While San Francisco police held Clyde Stevens, alleged to have smuggled weapons to the convicts, prison officials claimed the thwarted break had nipped the rise of a death-dealing bandit gang.

"Unquestionably these four convicts planned to form a bank robbing gang and spread terror through the east," said Julian Alao, acting chairman of the prison board.

"If everything had gone right we would have made Dillinger look sick," said Albert Kessel, one of the men who was taken into custody with Stevens.

District Attorney Albert E. Bagshaw planned vigorous prosecution of the three surviving escapees. The fourth, Rudolph Straight, 35, was fatally wounded by officers who surrounded the convicts 54 miles north

of here after they abandoned their hostages—the entire board of prison terms and paroles and two guards. Warden James B. Holohan, brutally beaten in the prison break, was reported recovering at his home here while solitary confinement cells held Fred Landers, 27, Joe Kristy, 26, and Alexander Mackay, 26, other convicts in the escape.

A Vital Message to Those Who Suffer  
Every Sick, Weak, Run-Down Man and Woman—Every  
Person Who Values Good Health—Stop—Read  
and Heed This Timely Advice.

Every person who suffers can have a full introductory bottle of this newest medicine to try for 25¢. Simply read the offer below. Do this in your own interest.

You may never have heard of VAL-ERB before—as it is being introduced in your community for the first time. But we firmly believe it will help you, as it has hundreds of others elsewhere, and that you will continue using it until you have received all of its benefits. Therefore, we are offering you the first introductory bottle at 25¢. The regular full size price of this medicine is \$1.

## What Is VAL-ERB?

It is an herb medicine. BUT it is not just another herb medicine! VAL-ERB is a BALANCED formula of EXCELSIOR herbs. Each root, herb, bark, leaf and flower from which VAL-ERB is blended was selected for its purity and high medicinal qualities. EACH ONE HAS ITS SPECIAL WORK TO DO—AND EVERY DOSE CONTAINS JUST THE RIGHT AMOUNT OF EACH INGREDIENT NEEDED TO DO THAT WORK! It is a medicine which Nature herself might have compounded. A medicine which brings AMAZING relief to those who suffer.

## What Does VAL-ERB Do?

It acts on the stomach, liver, kidneys and bowels. It DRIVES out rheumatism and neuritis; puts a stop to boils, pimples and other common blood disorders by ELIMINATING THE CAUSE! It builds strong healthy nerves. It will free your system of its over-supply of acidity. Those ravaging acids that accumulate and irritate your stomach—all you with gas—sour your food and cause constipation.

Will VAL-ERB Correct  
Stomach Trouble?

VAL-ERB mixes with the food in your stomach and AIDS digestion. It throws off the poisons that foster stomach trouble. It acts within ten minutes to stop gas, pain, sourness, bloating and belching.

Is It Good for Rheumatism  
and Neuritis?

How often have you longed for some relief from those agonizing swollen joints and muscles that torture you night and day? How often have you said that you would give ANYTHING IN THE WORLD for a few hours of comfort? By cleansing the system of poisonous waste matter and impurities VAL-ERB often banishes rheumatism and neuritis ENTIRELY in the ever-lasting joy of the sufferer.

Will It Help the Kidneys  
and Liver

VAL-ERB will drive the poisons from the kidneys and relieve backache, bladder irritations and weakness. It often corrects BED-WETTING in children in a few days. It cures the bile from the liver—but it will NOT gripe you or nauseate you like ordinary liver medicines.

W. E. Arthur, whose medicines have helped so many people, waste everyone who might be aided by VAL-ERB to try it. At 25¢ he believes everyone can try it. This offer is for Friday and Saturday only.

Will VAL-ERB Relieve  
Constipation?

Many human ills may be traced directly to this dreadful ailment. Many people who move around listlessly—are victims of constipation. VAL-ERB quickly establishes regular bowel movement in a natural way. It will SMOOTH bowels that have been ABUSED by the use of harsh cathartics.

Why Should I take  
VAL-ERB?

Because HEALTH: If you are suffering from stomach trouble, rheumatism, neuritis, constipation, dizzy spells, nervousness, lazy liver, weak kidneys or bad blood you are not getting the best out of life. You are being deprived of the most important thing in the world to you—GOOD HEALTH.

VAL-ERB has but one aim—and that is to ASSIST NATURE! Build you up in general and make you LOOK—ACT and FEEL like a different man or woman, years younger than your real age. It will rid you of that drawn, tired, sallow look—put a SPRING in your step and the SPARKLE OF GOOD HEALTH in your eyes.

To get your first introductory bottle of VAL-ERB, the BALANCED herb tonic, for 25¢ (Friday and Saturday) bring the coupon to the store below. You'll not regret it! Positively none of this introductory size available after these days—AD.

## POWER

is absolutely necessary to make a machine run. If something prevents a machine from getting sufficient power, it cannot do its work properly.

The human machine gets its life power from the brain, from which it is dispatched through the spinal cord over the nervous system to every cell in the body. If the lungs, heart, stomach, kidneys, liver, etc., or any part is weak or not working right, something somewhere is cutting off some of the power.

IN MOST ALL CASES THIS POWER IS WEAK BECAUSE OF PRESSURE ON A NERVE WHERE IT LEAVES THE SPINE.

Chiropractic Adjustments release this pressure and the power gets through. Let me explain more fully how.
